

RIDE CONFESSES KILLING DOCTOR!

LONDON AND DUBLIN BOTH TAKE UP TREATY TODAY.

Lloyd George Makes Public Correspondence That Passed With Sir James Craig.

(BY CABLE AND ASSOCIATED PRESS.)
LONDON, Dec. 13.—The imperial Parliament will assemble today to consider the treaty between Great Britain and the King will open Parliament and the Premier will explain the situation, explain the treaty and plead for acceptance of the settlement.

The House of Commons is expected to give the treaty its speedy ratification, and in the House of Lords, Viscount Morley will ask for similar action.

Simultaneously the Dail Eireann at Dublin will take the treaty under consideration, and the Irish plenipotentiaries, headed by Arthur Griffith, seeking its ratification, and Salmond de Valera, Sinn Fein leader, with a considerable following, opposing the instrument as it now stands.

LETTERS PUBLISHED.
Premier Lloyd George today gave out the correspondence exchanged between himself and Sir James Craig dealing with the Irish negotiations. These letters, dated from November 10 to December 6, were supplemented later by a letter made public by Sir James Craig, dated December 10, which was necessary to maintain the sequence of events.

The Ulster Premier unequivocally declared Ulster would not enter an all-Ireland Parliament, but was willing to accept three out of the four proposals of the British government.

Mr. Lloyd George argued that two dominions in Ireland was indefensible. Two alternatives were offered to Ulster, the one that it should retain its existing powers, with additional guarantees, if it so desired; the other that it retain its present powers, but in respect to all other matters be merged with the rest of Ireland.

Mr. Lloyd George said that the Ulster Premier's declaration was a "bomb" thrown at the British government, and that it was a "bomb" thrown at the British government, and that it was a "bomb" thrown at the British government.

PACIFIC PEACE TREATY SIGNED BY FOUR POWERS

First Important Achievement of Big Conference; Harding in No Rush for Confirmation by Senate.

(EXCLUSIVE DISPATCH.)
WASHINGTON, Dec. 13.—The first important achievement of the Conference on the Limitation of Armaments was consummated today when the plenipotentiaries of the United States, Great Britain, France and Japan signed the four-power treaty, which terminates the Anglo-Japanese alliance and establishes an understanding to stabilize peace in the Pacific.

At the White House it was learned that President Harding is in no rush to obtain the consent of the Senate to ratify. He will transmit the treaty to the Senate in due time for action upon it after the holiday recess of Congress and after the adjournment of the conference when Senators Lodge and Underwood, the Republican and Democratic leaders, respectively, who also are members of the American delegation, will resume their duties in the Senate and direct the fight for ratification.

Understanding and Intent.
Concurrently with the signing of the Pacific treaty, the four powers also signed the following agreement, declaring the "understanding and intent" of the conference.

"That the treaty shall apply to the mandated islands in the Pacific Ocean; provided, however, that the making of the treaty shall not be deemed to be an assent on the part of the United States of America to the mandates and shall not preclude agreements between the United States of America and the mandated powers respectively in relation to the mandated islands."

That the controversies to which the second paragraph of Article I of the treaty relates, the signatories shall not be taken to embrace questions which, according to principles of international law, lie exclusively within the domestic jurisdiction of the respective powers.

AMERICAN RIGHTS.
The first provision of this agreement revives the question of American rights in the mandated islands, which will be formally recognized by Japan in the Yantai convention to be signed in a few days and presumably by Great Britain in a convention pertaining to the former German islands south of the Equator, which is to be negotiated later.

Under the second part of the agreement, the four powers agreed to meet in a conference to discuss the question of accumulation of arms.

Charges of accumulation of secret arms, of training troops in secret and of tricking the Disarmament Control Commission have been made so constantly in the French press and by Lefevre and others before the Chamber that they have come to be believed by many people who otherwise would have adopted a far less suspicious and bellicose attitude.

There are some statements with which Chancellor Wirth answers in detail these charges against Lefevre's statement in the Chamber.

He says all free corps in Germany are dissolved and for reasons of internal security as well because of treaty obligations the government will take energetic action against persons who attempt to reform them.

With regard to accusations that sport guns which might be converted into rifles are being manufactured in large quantities, the Chancellor says that a sample of these guns has been examined by the Disarmament Commission.

After this meeting, it was said that only "one very small point" remained unsettled. It was indicated that both the American and British groups were opposed to the retention of the list of retained ships of each power as would be necessitated if Japan retained the Mutu. This opposition, however, is expected in conference circles to give way if the Japanese are insistent. In that case, it was learned that the United States probably would retain the battleships Colorado and Washington, in place of the Delaware and North Dakota.

There was some reason to believe tonight that British opinion in the sessions of the big three nations was leaning toward the retention of the list of retained ships of each power as would be necessitated if Japan retained the Mutu.

LATEST NEWS

UNIDENTIFIED BODY FOUND.
SANTA BARBARA, Dec. 13.—The body of an unidentified man with the head badly battered was found today on a few yards from the Coast highway, thirty-five miles north of here. County authorities returning tonight from the scene expressed belief that the man was slain Sunday or Monday on the highway and dragged to the point where it was found. The body, which was dressed in working clothes, was described as that of a man 45 years old, 5 feet tall and weighing about 150 pounds.

HELD ON ASSAULT CHARGE.
E. J. Brooks and Ed Wood, negroes, of Los Angeles, are held at Fullerton on a charge of suspicion of assault with intent to murder, as the result of an altercation there last night over the placing of the arm cuts on the subject of the assault.

PERUVIANS CROSS BORDER.
BUENOS AIRES, Dec. 14.—Peruvian troops have crossed the Chilean frontier, according to the correspondent of La Nacion at La Paz, Bolivia.

Young Bandits Rob Poolroom in Inglewood.
Two of four auto bandits who held up and robbed Frank Hughes, proprietor of a pool hall on Commercial street, Inglewood, late last night, were the subject of a search by Marshal White and Constable Mosher in the vicinity of the suburb at an early hour this morning. According to a telephone message reaching Central Police Station shortly before midnight, the four bandits, leaving out of the pool hall after the robbery, engaged in a running pistol battle with the marshal. One of the bandits is believed to have been struck by a bullet, and the other three are believed to have fled in an automobile that had evidently been planted near the scene of the robbery and drove toward Los Angeles. The other two, according to reports from Inglewood, were unable to reach the city and were believed to have attempted to hide away from the officers in the alleys of Inglewood.

WOMAN IS CALM.
With the same calmness which marked her entrance to the home of Dr. Glickstein, and her departure after she had put a bullet through his heart, Mrs. Raizen sat in the office of the District Attorney and told her story. Only when she came to the point of the actual shooting did her composure break. She sobbed when she told how she had pulled the trigger of the revolver which had killed her husband.

WOMAN CALM AS SHE RELATES CRIME; SAYS VICTIM BETRAYED HER

NEW YORK, Dec. 13.—Mrs. Lillian Schaffer Raizen, 29 years of age, six months' bride of Charles S. Raizen, a Brooklyn toy manufacturer, confessed to Dist. Atty. Lewis at 6 o'clock tonight that she shot and killed Dr. Abraham L. Glickstein in his office at 535 Bedford avenue last Saturday evening.

She blamed the remorseful recollections of a past in which Dr. Glickstein had been a fearful figure for an act which may send her to the electric chair unless her attorneys can prove that she was insane when she committed it. They indicated tonight this they proposed to attempt.

Mrs. Raizen was surrendered by her attorney, Benjamin Ream, of the firm of Hirsch, Newman and Ream, who for years have been counsel for her father, Jacob Schaffer, president of the Schaffer Tinware Manufacturing Company of Brooklyn, and by Aaron William Levy, counsel for her husband. It was said after she had been sent to a cell in the Gates avenue police station that detectives under Capt. Daniel Carey of the City-street station had been close to her trail since Monday night and that her arrest, had she not given herself up, would have been only a matter of hours.

HANGED BY A MOB, MAN SHOWS GRIT
(BY A. P. NIGHT WIRE.)
WACO (Tex.) Dec. 13.—Curley Hackney, white, about 30 years old, arrested in connection with an attack on an 8-year-old girl, was taken from the City Jail tonight and hanged three miles south of town. He confessed, according to the police.

Hackney, crippled in the right leg from a recent gunshot wound, presented the coolest and most audacious front possible to the scene of the hanging.

His last words before he swung from the end of the rope were: "No use to argue with a mob, buddy; they hold axes and I hold a gun. Only one thing, they're making it out worse than it really was."

Arriving at the scene of the hanging in the first car, which was followed rapidly by at least fifty others, Hackney coolly leaned against the side of the car and smoked a cigarette, which was put up immediately for a rope. A suggestion was made: "Hang him with some wild chains."

"Aw, get a rope," replied Hackney, "do it up right."

The sound was then heard of some one tearing up a piece of rope, preparing a crude rope. Hackney, hearing it, said:

"Well, how, there is one consolation any way, I'm going to shake hands with several of you in hell. I did it and I guess I'll pay."

A rope appeared and was placed about his neck. He was asked if he wished to make a statement.

"I would like one thing, fellows: if you can't find a rope, use my body. I'm not afraid to die. I've faced it before, too, many times."

He was then placed on a high seat and with several men pulling on the rope he was swung off his feet. As the crowd turned to leave the body hanging in the moonlight, someone fired a shot, a burst of fusillade was fired. The body was completely riddled.

HIGH WATER IS RECEDING.
Death List in Northwestern Floods and Slides Now Thirteen; Damage Reaches \$250,000.
(BY A. P. NIGHT WIRE.)

SEATTLE, Dec. 13.—Flood waters in more than a dozen towns in Washington, partially inundated since Sunday as the result of incessant rains and Chinook winds which rapidly melted mountain snows, were reported tonight to be slowly receding under the influence of lowered temperatures and clear skies.

Moderate rains were predicted for the next twenty-four hours, but pressure conditions indicated continuation of lower temperatures and Weather Bureau officials here expressed the belief that the height of the flood stage had been passed.

DEATH LIST CLIMBS.
The death list in the State as a result of the floods has brought thirteen tonight with the death at Montesano of John Lind, a construction camp laborer, and the abandonment of hope of rescuing two others who were buried in the wreck of a train struck by a slide at Melbourne, near Aberdeen. Unofficial calculations placed property damage, above \$250,000.

Trains to the East over the Chicago, Milwaukee and St. Paul and Northern Pacific railroads were halted tonight and all trains on all transcontinental lines were either annulled or being detoured over Columbia River routes.

An Oriental Rug at Cost
a happy thought for a Christmas Gift
I know it sounds unreasonable for me to say
that I will sell you an Oriental rug at cost,
but that is exactly what I will do. And when
I say at cost, I mean my actual invoice cost,
with no selling cost, advertising cost or over-
head cost of any kind added.
I have a group of room-size rugs — Anatol-

which is my cost. The smallest in the group
is 9x12 feet.
I am doing this for a purpose. Although I
was in business in Los Angeles for many
years (I was founder and manager of the

and I want to re-establish myself quickly.
I am not merely knocking a few dollars off

**ANOTHER NOTCH
FOR O'CONNOR.**
Four Detectives Injured on
Chase After Killer.
Auto Overturns on Icy Roads
Near Milwaukee.

**Chicago Police Out on False
Tip from Village.**

CHICAGO, Dec. 13.—Dying at a
high speed on ice-covered roads
en route to Hartford, Wis., on a
false Tommy O'Connor tip, two
Chicago detectives were probably
fatally injured and three others
were seriously injured when their
automobile skidded and overturned
three times.
The accident happened three
miles east of Menominee Falls,
Wis. Those injured were Jack
Boschulte, thigh broken, internal in-
juries, expected to die; John Mur-
phy, skull fractured; James Fray-
ley, Edward Kennelly and William
Schultz.
The tip which led to the accident
had been exploded at the time the
wreck occurred.

ANOTHER NOTCH.
"It's another notch on O'Con-
nor's gun," said Chief of Detectives
Hughes, commenting on the
accident. "There will probably be
many more good men injured or
killed before he is captured again.
And it is just as much the fault
of those guards at the jail as it is
O'Connor's."
Early today the Chief of Police
of Hartford telephoned Chicago
that he had a man believed to be
O'Connor surrounded in a house
there. Ordinarily Chief Hughes
said today he would have sent de-
tectives to the scene by train. It
so happened, however, that a short
time before a young man had
brought in a postal signed "Tommy
O'Connor," which he said had been
given him by one of five men in
an automobile in Milwaukee.
Added to this, he picked out from
a group of photos that of O'Connor
as the man who gave him the
card. Hartford is about thirty
miles north of Milwaukee and the
tip looked good.

THROTTLE WIDE OPEN.
Armed with shotguns and rifles
the squad set out. Ten miles out
of Milwaukee with a straight
stretch ahead Frayley had the
throttle wide open. The big car
was making sixty-five. Then came
disaster. Out of a side road
darted a farm truck. Frayley
swerved to the left to miss it. The
detective car skidded, plunged into
a ditch and turning over three
times came to a stop forty feet
away in a cornfield.

Frayley and Boschulte and Ken-
nelly were thrown from the ma-
chine. Boschulte and Murphy were
pinned beneath it.
Boschulte and Murphy were un-
conscious when the less seriously
injured men rescued them, and it
was at first reported that they
were dead. Frayley and Schultz
carried them to a near-by farm. A
telephone call brought an am-
bulance from Milwaukee.

NOT O'CONNOR.
Meanwhile the suspect who
caused all the trouble had turned
out to be not Tommy O'Connor but
an ordinary tramp who looked
something like him.
Developments in Chicago today
were chiefly centered around the
triple inquiry into conditions at
the County Jail. In defense of
his regime, Sheriff Charles Peters
issued a lengthy statement laying
the blame for the inadequacy of
the battle on the County Commis-
sioners.
Sheriff Peters admitted that the
building was an unsafe place to
keep prisoners; he told of pre-
viously planned jail deliveries; and
said that at the present time con-
ditions were positively dangerous.
He said he had warned the
county board repeatedly of at-

who came west during the

**CHICAGO GROCER BADLY
BEATEN BY HUSBAND ON
THE WRONG TACK.**

CHICAGO, Dec. 13.—"Let me
go. Please let me go."
Through the thin partition that
separates his butcher shop from the
grocery of Harry Appleman, came,
distinctly, these words to the ears
of Marino Saffino. He recognized
the voice as that of his wife.
Dashing into the store he saw
his wife at the telephone and Ap-
pleman opening a box of canned
fruit. He sprang upon the grocer
and administered a sound beating.
"What's the idea?" demanded
Appleman as he spat out some
broken teeth and pulled his bat-
tered countenance back into shape.
"You know, wife-stealer, that
you are," snorted Saffino as he
grabbed Mrs. Saffino by the arm and
hustled her out of the store.
Appleman caused the arrest of
Saffino. At the hearing this after-
noon the wife testified that Ap-
pleman had not molested her, and
that she was pleading over the
phone with another woman to al-
low her to accompany her on a
Christmas shopping trip.

EVENTS.**

VISALIA, Dec. 13.—Tomorrow
promises to be a red letter day at
the San Joaquin Valley Citrus Fair
which is drawing hundreds daily to
this city. Gov. Stephens will be
present.
It is Fresno day and W. J.
Compton, world-famous archer, will
give an exhibition of old-time En-
glish bow and arrow art. Compton
was trained in boyhood by the
Sioux Indian and is a professional
hunter, who uses a bow because he
thinks it more sportsmanlike than
a gun.
He has killed all kinds of big
game in this manner, he said to be
the only bowman in the United
States. He was commissioned by
the United States government to
hunt grizzlies in Yellowstone
Park last year for display in muse-
ums. He has appeared as an Indi-
an chief and as William Tell in car-
nivalous California events, and has
made his home in Visalia several
years.

SAN FRANCISCO, Dec. 13.—
Charges by Gavin McNab, attorney

that prohibition officials broke cus-
toms seals aboard the steam yacht
Patricia when the liquor belonging
to the wealthy shipbuilder was
seized recently at Monterey, Cal.,
caused both prohibition and cus-
toms officials to telegraph to Wash-
ington today for advice as to which
branch of the government should
prevail.
McNab also asserted the ship
was of British registry and there-
fore not subject to search by pro-
hibition agents.
The liquor is held here and the

**DEFICIENCY BILL
PASSED BY SENATE.**

**GIVES \$3,000,000 MORE THAN
HOUSE MEASURE; GOES
TO CONFERENCE.**

WASHINGTON, Dec. 13.—The
Senate passed tonight the first de-
ficiency bill carrying an appropri-
ation of \$108,800,000 or approxi-
mately \$100,000 more than con-
tained in the bill as passed by the
House. The measure now goes to
conference.

During discussion of appropri-
ations carried in the measure,
Democrats charged that the Re-
publican administration was seek-
ing to "cover up" its actual ex-
penditures by appropriating funds in
deficiency measures rather than
through the budget.
The economy talk of the Republi-
cans, Senator King of Utah de-
clared, should not be taken too
seriously.

DRY RAIDERS BUSY.

NEW YORK, Dec. 13.—Ninety
Federal and State prohibition
agents in a wholesale raid in New
York's tenderloin district last
night, arrested thirteen persons and
summoned ten restaurant and
hotel proprietors for violation of
the prohibition laws. Among the
places visited were the Cafe de
Paris, Thomas Healy's restaurant,
at Columbus avenue, the Little
Club on Forty-fourth street, and
the Hotel Lafayette, near Green-
wich Village.

Breaking of Tokio Water
Mains Inconveniences
the Populace.

WASHINGTON, Dec. 13.—
Breaking of the principal
water mains in Tokio, as a
result of the earthquake of
December 9, has seriously
inconvenienced inhabitants.
The Japanese delegation was
advised today. Water for
the use of the Imperial Pal-
ace is being supplied from
Tokohama by automobile.

brought \$65,228 aliens into the
United States in the fiscal year
ended last June 30, according to
the annual report today of Sec-
retary Davis of the Department
of Labor.

This number compared with
\$10,051 in the previous fiscal year
and is more than twice the es-
timate of \$30,000 which Mr. Davis
makes for this fiscal year under
the operation of the Restriction
Act.

More than one-fourth of the
aliens admitted last year were
Italians, the number being 223-
260, as compared with 95,146 in
the fiscal year of 1930. Num-
bered by race, apart from the na-
tionality, the report says, the Jap-
anese arriving numbered 119,026.

JAPS ARE FEWER.
Chinese admitted numbered
4017, an increase over the prece-
ding year, but the admissions of
Japanese decreased from 12,888 in
1930 to 10,478 in 1931. In Hawaii
the Japanese arrivals showed a
slight increase, with a total of
3439.

The number of aliens in general
deported the report says, showed
a considerable increase, with a
total of 4517 as against 3763 for
1930.

It cost nearly \$4,000,000 to pass
upon and admit the immigrant
ties for the last fiscal year, Mr.
Davis says. To enforce the laws
against alien anarchists cost an
additional \$500,000, while the de-
portation of undesirable added
\$127,000 to the total.

SMUGGLING TOPIC.
The Bureau of Immigration,"
says the report, "raises complaint
as to smuggling and surreptitious
entry of aliens. The 'seamen
route' is a favorite device. That
is, they arrive as sailors and man-
age to disappear in the depths of
the country. Many others arrive
at Mexican ports and sneak across
the border. Several hundred of
these were arrested and deported
during the year as rigorous de-
portation to the country of origin
has been thought the only effec-
tive means of breaking this prac-
tice."

Aliens filing petitions for citizen-
ship during the year numbered
198,150, while the number of
declarations of intention was 304-
481, an increase of 4375 over the
number for the last fiscal year.

Citizenship training activities of
the department have been extended
to 355 communities over the
country, Mr. Davis says, but "in-
dustrial unrest resulted in a re-
duction in the number who availed
themselves of these benefits, the
total this year being 117,073."

SELF-SUSTAINING.
Despite the cost of handling the
aliens, Mr. Davis says, his depart-
ment was more than self-sustaining
during the year. The total ex-
penditures, amounting to \$6,660-
888, while balanced against this
year's receipts, as follows: Im-
migration head tax, \$5,713,763;
naturalization fees, \$912,303; fines
for attempted evasion of the im-
migration laws, \$125,411, and for-
feiture of bonds, \$41,000.

Reviewing the activities of the
division of conciliation, the Labor
Secretary notes that during the
year department conciliators were
asked to adjust 457 industrial dis-
putes, ranging from the strikes in
the packing and shipping indus-
tries to minor differences, involv-
ing only a score of men. These
disputes, it is stated, affected 429-
745 workers directly and 172,261
workers indirectly and in only
forty-eight cases were the concilia-
tors unable to reach a settlement.

EXTRA PANTS FREE

Whether "HE" is husband, son, brother or sweetheart, nothing you can give him would please him more than a fine Tailored-to-Measure Suit, with an Extra Pair of Pants, "Snappy" Custom-Tailored Overcoat. Month after month "he" would gratefully remember that YOU gave him out of the "rubber-stamp clothes" class of men—those who wear machine cut "ready-mades." Hand-tailored clothes grow old gracefully. They chum with the lines of one's figure—they iron out their own wrinkles and soften and smarten with wear, like an old glove. Briefly—they fit—as no "ready-made" garment can.

Latest patterns, down-to-the-minute fabrics, every desirable coloring and shade, are included in our wonderful display of Fashion's latest decrees in All-Weather Suits and Overcoatings for the autumn and winter season of 1932-33, now ready for your careful scrutiny. Our buyers have exhausted the possibilities of the most up-to-date Woolen Markets of the World, and every table in this—The Largest Upstairs Tailoring Store in the West—is piled high with Suits and Overcoatings selected with most discriminating regard for the climatic conditions of Southern California. For men who want the BEST, regardless of price, we have some special prices—a little higher—but still well below what others ask.

We were FIRST to give EXTRA PANTS FREE!
We were FIRST to return to PRE-WAR PRICES on Tailoring last year, and thus force clothes prices down.
We are ALWAYS FIRST to take advantage of Spot Cash Offerings in the Woolen Markets of the World, giving YOU advantage of our savings—that's why we're ALWAYS able to undersell our alleged "competitors" and KEEP clothes prices down.
And more—you can ALWAYS depend on us to offer the Greatest Tailoring Values on the Coast—you expect this of Us—and we will try to never disappoint you.

SUITS AND OVERCOATS ORDERED THIS WEEK WILL BE FINISHED IN TIME FOR CHRISTMAS

We offer the very last word in Autumn and Winter
Woolens—Worsted, hard finish and unfinished;
Serges, Tweeds, Gabardines, Tibets, Cashmeres and
Novelty Weaves, in nearly every conceivable shade and
coloring, and in all the newest patterns—pencil stripes,
herringbones, checks, plaids, iridescent, silk mixtures,
bankers' grays and plain, according to your preference.
A provision of patterns that overrules any other stock
on the Pacific Coast—fabrics approved by the correct dressers
of two continents.

Remember! EVERY garment we sell is tailored to our
customers' INDIVIDUAL measure, in our own newly enlarged
DAYLIGHT workshops, by expert craftsmen, from a pattern
drafted by OUR OWN MASTER DESIGNERS in any style
you select, and is finished with high-grade linings and
trimmings.

Compare our finished garments with any other tailor-made suits ANYWHERE at much higher prices—compare them with "ready-mades" if you wish—and compare the more you will realize why we make more than twice as many clothes as any other tailor on the Pacific Coast—WHY our many thousands of customers have made us THE LARGEST CUSTOM TAILORS IN THE WEST.

WARS MAY STEP EAST; MATCH CENTRE-ARIZONA

More Football Scene Changes With Arizona Cast in Title Role; U. of C. Elated.

(BY A. P. NIGHT WIRE.)
SAN DIEGO, Dec. 13.—The Centre College football team will play the University of Arizona eleven at San Diego, December 26, it was announced by the athletic officials of the University of California.

ARIZONA (Ariz.) Dec. 13.—In a long-distance conversation this afternoon between Graduate Manager E. L. "L." of the University of Arizona and President E. B. Gould of the University of California, the Arizona institution accepted an invitation to play the Centre College team in the California city on December 26. Under the terms of the agreement the expenses of thirty bona-fide members of the Arizona team will be paid.

BOSTON, Dec. 13.—Harvard University invited the University of California to meet the Crimson football team at the Harvard Stadium October 28, 1921. The telegram containing Harvard's invitation, which was sent to Graduate Manager Nichols of California by the Crimson football team, was received today.

SANTA CLARA FIVE HAS BUSY MONTH.

(BY A. P. NIGHT WIRE.)
SANTA CLARA, Dec. 13.—Six basketball games are to be played in Southern California late this month by the University of Santa Clara. The team leaves here December 25 for Los Angeles. Two games will be played with the Los Angeles Athletic Club, two with the Pacific Fleet, one with the Alhambra Elks and one with the Southern Branch of the University of California. Later in the season Santa Clara hopes to meet the University of California, Stanford University and the Olympic Club.

JOE KELLY MAY GO TO INDIANAPOLIS CLUB

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, Dec. 13.—Joe Kelly, who was with the San Francisco club of the Pacific Coast Baseball League last season, may go back to the American Association and play with Indianapolis, his home town, next year, according to reports here. Negotiations for his transfer are being conducted, it is said.

JAKE SCHAEFER IS A REAL CHAMPION.

(BY A. P. NIGHT WIRE.)
BOSTON, Dec. 13.—Jake Schaefer of Chicago, 182 lb. bantamweight champion, won two exhibition matches from Roger Smith, French expert here yesterday, 400 to 254 in the afternoon, and 400 to 182 in the night.

His knowledge and belief that California has a powerful team prompted Head Coach Neale to order practice for his players in the snow today. He is making every effort to whip his athletes into shape for the greatest game in which an eleven of the school has ever participated and also to uphold the traditions of eastern football.

Graduate Manager Murphy's definite plans for the western trip briefly, are as follows: Party leaves Washington morning of December 24 and arrives Kansas City December 25. Leaves Kansas City 9 a.m. December 27, and arrives Grand Canyon, 2:30 a.m., December 28, leaving 7:30 p.m., and arriving Pasadena 2:05 p.m., Pacific Coast time. The W. and J. football party will remain in Pasadena and Los Angeles for one week, starting the homeward journey on January 5 with stops at San Francisco, Salt Lake City, Colorado Springs and Chicago.

The W. and J. players will practice at Kansas City and will likely hold a brief drill at the Grand Canyon.

GRID PRACTICE IN HEAVY SNOW

W. and J. Football Stars Are Working Regardless.

Coach Neale Says His Team Has Fighting Chance.

Squad Starts West on the Day Before Christmas.

(EXCLUSIVE DISPATCH.)
WASHINGTON (Pa.) Dec. 13.—In a drastic effort to keep his Washington and Jefferson College gridiron athletes in condition and form, Head Coach Creamy Neale had the players practice this afternoon at College Field on a gridiron that was covered with six inches of snow. Because of unfavorable weather yesterday the workout was limited but today he had them running through signals and going through drills in handling the ball for more than an hour.

The scrimmages were scheduled this week for the Red and Black players, but unless there is a decided change in the weather it is certain that these will be discontinued. While the thermometer did not register as low as at other times, this fall, a penetrating wind made the practice for the Presidents more disagreeable.

LEAVE SATURDAY.

It was definitely announced today by the Washington and Jefferson College authorities that the football party would leave Washington on Saturday morning, December 24, at 7:54 o'clock. With stopovers of two days at Kansas City and one day at the Grand Canyon this will permit arrival at Pasadena early in the afternoon, 2:05 p.m. Pacific Coast time, on Friday, December 30.

Decision to postpone the long journey was due to the fact that the faculty desired the members of the squad to be held in school as long as possible. Head Coach Creamy Neale offered no objection as he had already announced himself in favor of the plan to delay the arrival of his athletes at Pasadena because other eastern elevens had felt that they were handicapped by arriving at Pasadena too early with the result that the change in temperature affected their physical condition.

ROOSTERS COMING.
Athletes of W. and J. will be accompanied by a number of students and townspeople. It is impossible to determine the number as yet, but it is likely that a contingent of students and alumni will charter a special car. If formed this party will likely not leave Washington until a day or two later than the squad.

"I am not predicting victory for I know that California has one of the greatest machines in the history of football," said Coach Neale today when questioned by an eager enthusiast regarding the probable outcome.

"I do believe sincerely though that W. and J. will make a better showing than Ohio State last year."

IN THE SNOW.

His knowledge and belief that California has a powerful team prompted Head Coach Neale to order practice for his players in the snow today. He is making every effort to whip his athletes into shape for the greatest game in which an eleven of the school has ever participated and also to uphold the traditions of eastern football.

Graduate Manager Murphy's definite plans for the western trip briefly, are as follows: Party leaves Washington morning of December 24 and arrives Kansas City December 25. Leaves Kansas City 9 a.m. December 27, and arrives Grand Canyon, 2:30 a.m., December 28, leaving 7:30 p.m., and arriving Pasadena 2:05 p.m., Pacific Coast time. The W. and J. football party will remain in Pasadena and Los Angeles for one week, starting the homeward journey on January 5 with stops at San Francisco, Salt Lake City, Colorado Springs and Chicago.

The W. and J. players will practice at Kansas City and will likely hold a brief drill at the Grand Canyon.

Jack Miller Signs Up to Boss Seals.

Jack Miller, veteran infielder of the Phillies, today signed a contract to manage the San Francisco club of the Pacific Coast League. Miller has spent thirteen years in the National League. He joined the Pittsburgh Pirates in 1909, as a second baseman, was traded to St. Louis in 1914, and played second base, and then first with the Cardinals, until three years ago, when he went to Philadelphia. During the war he served in France with the marines.

But where's the duck that wouldn't gladly lie down and die for Miss Mason.

FIGHT FOR GRID TITLE.

Bakersfield Enters Prep Contest With Big Weight Advantage Over Santa Ana Team.

(EXCLUSIVE DISPATCH.)
BAKERSFIELD, Dec. 13.—To decide which team will meet the Northern California champions for the State high school football title a week later, Bakersfield and Santa Ana, winners of the San Joaquin Valley and Southern California sectional championships, respectively, will meet at the Santa Ana High School, Saturday afternoon, at 2:30 o'clock. Santa Ana's players and their referee are expected here Wednesday evening. The Southland flashes will hold light practice Thursday and Friday preparatory to the crucial game.

GIVE AWAY WEIGHT.

The Southerners will start the struggle outweighed by four pounds to the man. The Bakersfield average is 160 pounds, while Santa Ana's is said to be less than 155 pounds. Coach "Goody" Griffith's backfield averages 160 pounds plus and his line 160 pounds, minus, of the four men on the team weighing over 170 pounds, being behind the line. They are Peter Schaffnit, punter, and Hare Giraud, line runner. Giraud is the heaviest man on the local eleven, tipping the scales at 185 pounds. His work was largely responsible for annexation of the State title last year by Bakersfield.

Santa Ana's backfield, said to average 140 pounds, therefore will be outweighed eleven pounds. Lines will play on an equal basis as reports state that the Santa Ana line averages 150 pounds.

DANGEROUS MEN.
Red May and Fletcher, the colored star, are two of the most dangerous tackles in the State. Both weigh over 170 pounds. Fletcher, who weighs close to 180, balances the team.

GOING TO SHOW THAT BALL GAMES ARE LOST IN FUNNY WAYS; EVEN BY KNOT HOLES.

BY HARRY A. WILLIAMS.
Lost—One \$500 knot hole about the size of a regulation baseball. Jim McCormick, erstwhile semi-pro impressario, would very much like to recover this knot hole and the board which goes with it. Whether Mr. McCormick wants to build a bungalow with a knot hole in it or not is none of our business. Be he does seek this piece of perforated pine.

FIGURED HIGH.
Knot holes have figured much in baseball, or did until the magnates, fooled the youthful peeping citizens by throwing a concrete emplacement around his baseball citadel, but this one is unique in the extreme.

Some years ago, ten or twelve, or possibly fifteen, when Los Angeles probably covered less than half of its present territory, but was twice as sparsely inclined, McCormick conducted a pool and billiard parlor of Spring street, known in the recondite parlance of those times as the Rialto.

MORE OF THEM.
Further along up the street Barney Oldfield and Jack Kipper had a saloon as did Jim Jeffries. Then there was Hap Hogan's pool room, and Jim Morley's billiard parlor.

Jim, determined to drag something out of the game, piled the board with the expensive punture in it off the fence, had it painted and labeled the "five hundred dollar knot hole" and treasured it for a number of years.

WILSON GETS A FAT CHECK.

(BY A. P. NIGHT WIRE.)
NEW YORK, Dec. 13.—Tex Rickard, fight promoter, today handed Middleweight Champion Johnny Wilson a check for \$35,000 to cover his end of the bout with Bryan Downey of Cleveland in Jersey City last September. The money had been withheld by Rickard at the request of the New Jersey State Boxing Commission which charged that the champion had not put forth his best efforts.

Wilson is said to have agreed that he would box any opponent Rickard might select before January 5, the contest to take place the middle of the following month.

CHAMBLERS AT WORK IN GOLF CHAMPIONSHIPS.

Chick Evans Thrown Off Game in Recent Tournament; Exposes Some Shady Tactics.

BY "CHICK" EVANS.
(Charles "Chick" Evans, holder of seven major championships, has written an astonishing series of articles on gambling in golf championships that will startle every player of the royal and ancient game. The stories furnish an amazing expose of what happened at St. Louis during the national championships this fall. This is the second of the series, which will be published exclusively by The Times in Los Angeles—Ed.)

(EXCLUSIVE DISPATCH.)
CHICAGO, Dec. 13.—At the fourth hole in my semifinal match with Guilford in this year's national amateur golf championship, Jimmie Ständish, one of the referees, came to me and said that some one in the gallery had requested that the referee clean the ball, adding: "Of course we will clean Guilford's ball, too."

I did not at the moment take in the full significance of this remark. I was playing a course that made unusual demands on my game and struggling against a fine golfer who was delivering a great game on a course well suited to him. Almost immediately certain other things that could not be overlooked came to me and I further insisted on the referee. He had also heard one of them say, "There he is doing it again." By this time I was probably alive to just what was being done by this group of disturbers. They plainly were out to get my goat, and they had gotten it.

Of course, the referees should have acted independently for a gallery is on a course only by the courtesy of the club, and for a moment I was tempted to have it out with the intruder then and there with fists if necessary. Only my consideration for Guilford, who was playing his game in the most sportsmanlike manner, unaffected by the elements or any other consideration, deterred me.

As the man following us no doubt well knew, he was the first one ever to accuse me of taking advantage of any situation. The effect of his accusation was well planned—it was adroit. It went straight home with me, and accomplished what it was intended to accomplish. My whole reputation is built on the fact that I have always, when possible, given the other fellow the best of it. I have played a thousand hundreds of matches where rivalry has been keen and the gallery has shown it, but never in an insulting manner. All little gallery mistakes such as applause at the wrong time, standing in the line of putts, etc., are minor faults. The insult direct to me was a major offense. The effect on my game left me utterly unable to concentrate.

Immediately after the match I went to a nationally known golfer who was in the group, and whom I have always considered my friend, and told him exactly what I thought about the matter. He told me that he knew the man involved but would not discuss the matter.

Oakland Builds a Guarantee Into Every Oakland Engine

A number of very noteworthy features have been incorporated in the Oakland Six Motor—features new, original and marking a definite advance in the science of engine building.

Cylinder walls are "honed" to a glass-like smoothness by a process perfected in the Oakland factory—special alloy pistons carry oil-sealing piston rings of exclusive design.

Long and vigorous driving tests by Oakland have thoroughly established that these improvements effectively eliminate what is commonly called "oil-pumping"—a source of annoyance to drivers of motor cars.

So certain is Oakland of this special construction that it absolutely guarantees every new Oakland 34 D Model against "oil-pumping" with a 15,000 mile written guarantee.

Come in and inspect the engine that carries this sweeping guarantee and also see the five attractive body types offered.

Majors Kick on High Prices Asked for Ball Players.

MAY BOYCOTT MINOR LEAGUES

High Price of Class AA Men Peeves Magnates.

Older Ball Body to Resort to Harsh Means.

Majors May Develop Their Own Near Greats.

(BY A. P. MOTT WIRE.)
 NEW YORK, Dec. 13.—A proposal to boycott class AA and class A minor league baseball players was made today by C. H. Ebbetts, owner of the Brooklyn club. Other league officials were said to have favored the idea, but Ebbetts' "prohibitive" prices asked by the minors for star performers, and suggested that the matter be placed before the joint major league meeting Thursday.

"We thought at first," said one club owner, "that we could fix a limit price to be paid by majors for minor league players, but decided this would not help matters. The only way to get around high prices is to adopt Mr. Ebbetts' suggestion."

A STONE WALL.
 The suggestion of the Brooklyn owner, if adopted, would place a "stone wall" about the minor league even higher than that built by the dropping of the draft, according to some International League owners, who finished their annual meeting today.

In his report to the National League, President Heydler said he believed the time had come when the majors should consider means of increasing the supply of skilled players and to give proper training opportunities to young men desiring to enter the professional game, but who decline to join minor league clubs for fear their advancement would be restricted.

RETAIN RULE.

The ruling permitting clubs to arrange their own spring training dates was retained. The 154-game schedule was favored for 1932. The opening date was suggested as April 12, subject to the approval of the American League.

Mr. Heydler made these suggestions:

Legislation or action looking to the arrest and conviction of pop bottle throwers in baseball parks. Protection of umpires in exhibition games.

LANDIS MILD ON THE RULE.

A few preliminary words with Judge Landis, and there would have been no "Ruth case" with its fines and suspensions, according to a major league player in Los Angeles.

"Judge Landis, as I understand it, was not particularly strong for the rule, and would have had it rescinded had the matter been laid before him," said this player. "At least, he would not have opposed the barnstorming trip had the matter been laid before him in the right spirit."

"But the affair looked so much like a challenge to his authority that he couldn't overlook it."

Joining with all leagues in an effort to secure a return to normal railroad rates.

Seven all-star boxing bouts in the offering of the American Legion for the grand reopening of their Hollywood arena next Friday night. Remodeling of the former open-air arena is nearing completion and the iron roof and heating system will be ready in time for the staging of the gala boxing.

Matchmaker Frank Crowley has given over the wind-up position on the bill to Young Brown and Joe Coffey, while the semi-windup will find George Thompson and Alex McDonald ready to step over the four-round route.

BOXING TO BECOME POPULAR AT VARSITY.

(BY A. P. MOTT WIRE.)
 SEATTLE, Dec. 13.—Boxing promises to become a popular sport at the University of Washington. Twenty-five men answered Coach Jimmy Arbutnot's first call. The coach predicts that glove bouts soon will become an established intercollegiate event in the Pacific Coast conference.

WILSON NAMED POMONA CHIEF.

Once Quarterback to Captain Blue and White.

First Gained Fame Last Year by a Long Run.

This Season's Work Hampered by Injuries.

(EXCLUSIVE DISPATCH.)
 CLAREMONT, Dec. 13.—Raymond E. Wilson, for two years quarterback on the Pomona College football team, was tonight announced as the captain of the 1932 Blue and White gridiron aggregation. This interesting bit of news was the main event of the annual Sagenen football banquet, but on the occasion of the Pomona College election actually took place last Thursday, but the public announcement was withheld until the football banquet.

Wilson first gained fame last year when he led the Pomona team, played on Alumni Field, he guided up his line and sneaked through the Trojan defense for a 15-yard run to a so-called touchdown. It was a touchdown, however, only a few seconds, however, as the ball was fumbled and Ray had gone out of bounds on his brilliant run. This year Wilson's work has been equally spectacular, although he has been badly hampered by serious injuries. The day of the U.S.C. game this fall the plucky quarter spent the four hours previous to the battle in an osteopath's office, entering the game with his back encased in tape. He was hurt in the first quarter of the Whittier game, this injury to his arm making further play for the season out of the question.

IS A JUNIOR.

Before the war, Wilson played on the University of California Frosh team and had it not been for the strife overseas would probably appear for them in golf. He is a junior and also takes part in track as a broad jumper and pole vaulter.

Wilson succeeds Chauncey Voorhes, who has completed his days as a Sagenen grid star. Voorhes, Gerald Denebrink, and Baker were awarded gold fobs, in the shape of a small football, at the banquet tonight. This indicates a recognition of three years of service on the gridiron. Denebrink was a four-year man, making the team when a freshman in the days of the U.S.C.

WILL BE MISSING.

Besides Voorhes, Denebrink and Baker, Jack Bassler, diminutive quarter who took Wilson's place after the latter was injured, graduates this June. These are the only men who will be missing when roll is called next year.

line is the undefeated collegiate champion of Minnesota and North Dakota. "Its goal line never was crossed," he declared. "Its record shows it one of the strongest teams ever produced in this section."

SOUTH BEND (Ind.) Dec. 13. A telegram from the San Diego Chamber of Commerce, expressing regret that negotiations for a contest between Centre and Notre Dame had failed because of the refusal of Centre to play, was received by athletic authorities at Notre Dame this evening. The wire also included the hope that Notre Dame could be seen in action at San Diego next year. Local officials anticipated the definite conclusion of negotiations by calling off football practice today.

Capt. Roger Kiley and Dan Coughlin were out for the basketball squad for the first time in more than a week. The basketball team plays a three-game series this week, but little confidence is expressed by Coach Hulse because of the interruptions which the football post-season prospect has caused to his plans.

SAN DIEGO, Dec. 13.—Following announcement from Danville, Ky., that the Centre College football team would not be allowed to play here against any team other than from a western college or university, the San Diego committee, which is arranging a game for December 26, today closed negotiations with the University of Arizona to send its team here to meet Centre. Members of the committee said that Arizona seemed on the basis of its scores to have a good eleven. Arizona beat Whittier, 7 to 0, and the University of Southern California, which, at one time was considered as an opponent for Centre, beat Whittier, 14 to 0.

The Centre team, which is expected to start soon for San Diego, will train at the Coronado polo field and will have headquarters at the Hotel El Coronado. The committee tonight was making arrangements for the Arizona squad.

CLAIMS HE SHOT IN SELF DEFENSE.

(EXCLUSIVE DISPATCH.)

SANTA BARBARA, Dec. 13.—Frank Bettencourt, foreman of the Associated Oil Company fields at Casimella, in the northern end of Santa Barbara county, is in jail at Santa Maria awaiting the outcome of a shooting at Casimella last night.

Bettencourt, it is claimed by the officers, shot an unidentified man through the head. The stranger is in an unconscious condition and was hurried to a Santa Maria sanatorium, where he lies in a comatose state and may not recover. Bettencourt claims he fired in self-defense.

BLIND ATHLETE ENJOYS GAME.

(BY A. P. MOTT WIRE.)
 NEW YORK, Dec. 13.—Perry T. W. Hale of Portland, Ct., a famous Yale all-American football player twenty years ago, now blind, described today his sensations of "feeling" big gridiron classics in the Yale bowl last fall.

"I could tell who was ahead and I could tell who won each play," he said. "The cheering which followed each play told the story. It was hard to be in suspense sometimes, but intuition told me so much."

Hale was the guest of honor at the Yale Club last night.

GAMBLERS WORK ON GOLF LINKS

(Continued from First Page.)

divulge his name. He declared the offender was not a Boston enthusiast for Mr. Guilford, but a St. Louis man. He led me to infer that it was some one who had an interest in the pool. From another source it came to me that this man had Guilford in the pool. The morning papers, seemingly sending an atmosphere of gambling, said that a Boston man had won the pool and had taken in more than \$7000. I cannot vouch for these statements, but I do know that if the pool reaches such figures the game itself is in danger. We have had one sport all but ruined through gambling, let us see to it that the best game of all be kept pure.

It is a well-known fact that golfers cannot play well when annoyed. If our game is to be kept at its best, officials must find some way to protect the players from insult. In no other sport, perhaps, can any player's game be so utterly upset by insult as in golf. It men in the galleries are more interested in the pool than in the players—if such men forget good breeding because thousands of dollars are involved in the pool—let us abolish the pool from the game once and for all.

With the events of the last amateur championship in my mind I am delighted that Jesse Guilford won. He is a splendid fellow to play with, and he played the very best golf at St. Louis. I feel especially glad of his victory this year, when I recall a scene in the locker room of the Engineers' Golf Club last year, where the tournament for 1930 was held. It was late in the evening when the qualifying scores for the championship were all in. A golfer sat in his corner, near his locker, his head in his hands, with the story of bitter disappointment written heavy in every curve of his quiet, modest face. The golfer was Jesse Guilford, the Boston Seige Gun, and he must have felt then that success in his chosen sport was just out of his grasp. Every note has left at some time the pang that he felt then. Today he is the champion, and I congratulate him. He earned his victory by a whole week of well-played golf, and without question it was the best golf there.

In another article I will tell of the pool, and how it works. (Copyright, John F. Dille Co., infringement, prosecuted.)

KNOT HOLE IS REAL EXPENSE.

(Continued from First Page.)

Later, he went out of business, and for a long time the board was seen in Kelo Brothers' bar. Then with the coming of prohibition, figuratively speaking, the board disappeared in some dark battles with peers along with the chandeliers, cut glass, bung starters, etc.

Possibly it went to a second-hand dealer, to the junk shop or was lifted by some seamy hunter, or it may have been split up into kindling.

Recently, out at Vernon and Monica I met McCormick for the first time in several years, and immediately asked him about the famous knot-hole so familiar a few years ago to thousands of frequenters of the Rialto.

"Search me," said Jim. "It disappeared when I was out of the city. I've tried to find it, but it seems to have been taken without leaving a trace."

POPULAR ONES.

McCormick recalled that on his club among others were the Naut boys "Goose" Pittman, Johnny Rawlings and Frank Andrade. "Rawlings was then so small that it seemed dangerous to hit a ball at him, but he maked some way to get them," said McCormick. Jim tried at the time to get Rawlings a trial with the Angels, but he was then not yet out of high school and his size seemed a hopeless handicap. This same Rawlings starred at second base for the Giants in the last world series, both in the field and at the bat.

Andrade, a Mexican, hardly able at that time to understand English, except for the fact he wasn't an Irishman, would have been one of the country's great pitchers.

McCormick recommended him to Cleveland. George Stovall, then manager of the Indians, was wintering at his home here. He looked Andrade over, liked his work and called on him at his home in Santa Monica.

DIDN'T SAVVY.

"How would you like to play with Cleveland?" Stovall asked. "What is Cleveland?" inquired Andrade, as the story is related by McCormick.

"Cleveland ain't a thing or a game. It's a city," explained Stovall. "Where?" asked Andrade. "You get on the steam train," explained Stovall. "You ride one day, you ride one night, you ride one more day, one more night and then one more day."

"I savvy," said Andrade thoughtfully, and after a hour of indecision, signed a contract.

He had the stuff, and in a way made good with Cleveland, but didn't stay long. Possibly it was homesickness, or too much manana.

Andrade is now working in a lumber yard, and possibly pitching a little sandlot ball on the side.

Open Ticket Sale for Big Game Tuesday

Due to the fact that plans for the Tournament of Roses stadium have been temporarily suspended, about 10,000 tickets to the California-Washington, and Jefferson football game January 3 will be offered to the general public, prices ranging from \$2.50 to \$4. The seat sale will begin Tuesday, December 29. It has not been announced yet where the pastebards will be sold, but there will undoubtedly be several ticket agencies in Los Angeles.

Had the original plans been carried out, every seat in Tournament Park would have gone to buyers of stadium script, and the public would have had a very slim chance of witnessing the big East-versus-West gridiron classic. As it is the subscribers to the stadium fund will get first choice of seats.

DUNDEE WINNER.

 PHILADELPHIA, Dec. 13.—Johnny Dundee of New York, last night defeated Harry "Kid" Brown of Philadelphia in an eight-round no-decision bout.

Cords That Sell Lower Than Fabrics

It's true that a Mason 32" x 4" Cord has the same air capacity as a 33" x 4 1/2" fabric. Because of this, scores of car owners are now substituting their antiquated fabrics with Mason Cords.

And at prices that are actually lower!

This economy holds true of all sizes of Mason Cords. So use fabrics when you can't use Mason Cords—long lived, resilient, dependable—at these remarkable prices.

COLLEGE GETS
STAR GRIDDERS.
[BY A. F. NIGHT WIRE.]
SEATTLE Dec. 13.—Two
star football players will en-
roll at the University of
Washington in January. It is
reported in university ath-
letic circles. They are Coy
Rice, who played center on
Centre College team in 1920,
and George Wilson, star
halfback of Everett High
School.
Powell is out of it for the sea-
son with Rainbow III. Mr.
Mackey's engine is on the way to
the factory for first-class adjust-
ment and should be back in time
for Frances II to go it at a great
rate. With Mackey, Hamilton and
Garbutt fighting it out there will
be one marine motor against one
auto motor and one aviation mo-
tor. The result will be decidedly
interesting.

SOCCER SQUADS PERFORM.
Soccer football makes its bow
at Washington Park Sunday after-
noon with the staging of two
classics. The L. A. Uniteds and
the Long Beach Uniteds clash in
the opener starting at 1 p.m.,
while the L.A.A.C. and the Over-
seas will fight for points in the
matinee affair. The playing of
these games will bring together
some wonderful soccer talent, and
should be productive of keenly
contested games.
Indicative of the fine soccer that
is being played is the small goal
average. The Uniteds, who are

The U.S.S. Camden, flagship
of the submarine force, Pacific wa-
ter, left yesterday for San Diego
for coal. She will return to her
base at the harbor late this after-
noon.
The officers and men of the Cam-
den and the Submarine Base are
planning a ball to be held at Los
Angeles New Year's Eve. Plans
for the event are being worked out
by a committee headed by Chap-
lain Miller of the Camden.
Navy orders direct the transfer
of Lieut.-Commander Tracey L.
McCauley from the Ninth Naval
District headquarters to duty with
the Pacific destroyer force. Lieut.
commander William A. Richard-
son, now at the Naval Academy, is
also directed to report for duty
with the Pacific destroyer force.
Lieut. Byron K. Frennell, watch
officer aboard the dreadnaught
Mississippi, has been ordered to re-
port to the naval hospital, Mare
Island, for treatment.
Ensign Sidney L. Huff, has been
transferred from the U.S.S. Paul
Hamilton to the U.S.S. Kennedy to
take the place of Ensign Charles
Wilkes, who goes to the Paul
Hamilton.
The submarine R-6, which sank
at Los Angeles Harbor on the night
of September 18, drowning two
members of her crew, and which
was recovered sixteen days later,
went into dry dock at the yard of
the Los Angeles Shipbuilding and
Dry Dock Company, at the harbor
yesterday. After an inspection of
her hull, the R-6 will be sent to
the navy yard at San Francisco
for the installation of new batteries
and machinery.

the right side of the line, as Lewis,
right-end, weighs 185 pounds.
Lewis, who is a first-class player,
and is replaced by Giraud on the
defense. He is an accurate passer
of forward passes. Hanning, left-
end, playing next to May, will
weigh close to 180 pounds. He is
good on the defense. Capt.
Loustalot, Schaffert, Giraud and
Green comprise the backfield.
Loustalot, a three-year
veteran and steered last year's
team to victory. He seldom carries
the ball, but is heavy and a
remarkable defensive player. He
is also fast, being a dash man in
track. Green does the forward
passing and returns punts. He is
in a broken field, equaling
Spaulding, who this year was the
California freshman's best. Ben-
Green only weighs 135 pounds.
Coach Griffith frankly admits
that he has a better balanced team
than the one that copped the State
laurels in 1920. He anticipates
victory with a hard fight.
WAY OFF FORM.
In the last two games, the locals
have been decidedly off form. This
is attributed to the lack of real
competition previously. Fullerton
is the only team that really threat-
ened the locals, but they came
back in the last quarter and scored
three times. Fighting with their
backs to the wall is a characteristic
of Griffith's team.
Saturday's game is expected to be
one of the cleanest played this
season. Although big and rough,
the locals have never been penal-
ized or even spoken to by an offi-
cial for unsportsmanlike conduct.
It being a cardinal principle with
their coach to play the game fairly
and squarely. He has won two
State championships in five years.
This is said to be true of Santa
Ana, also.
Valley critics size up the game
by will be a struggle for
supremacy between two fast,
well-coached and ably led eleven.
Neither having the advantage
in weight.
The officials have not yet been
named.

CARL SAWYERS TO
TACKLE ALL-STAR.
A five-game series has been ar-
ranged for between Carl Sawyer's
club and White's All-Stars. The
first games will be played at the
White Sox park, East Fourth and
Anderson streets on Saturday and
Sunday next.
Sawyer will have the following
players: Blue, first base; Ray-
ner, second base; Smith, third
base; Kingston, short-stop; Wolfer,
left field; Chadbourne, center field;
Christensen, right field; Hannah,
catcher; Hughes, Lewis and Dell
pitchers.
BO McMILLIN ACCEPTS
OFFER AS GRID COACH
[BY A. F. NIGHT WIRE.]
DANVILLE (Ky.) Dec. 13.—
"Bo" McMILLIN, Centre College's
star quarterback, today accepted an
offer to coach Centenary Col-
lege, Shreveport, La., next season.
It was said that the contract called
for his services for three years at
\$10,000 a year.
Announcement that a San Fran-
cisco salvage firm has contracted
with the Navy Department to
salvage the stranded destroyer De-
Long at Half Moon Bay and to de-
liver the vessel at the Mare Island
navy yard for \$25,000, was re-
ceived at Pacific Fleet headquar-
ters yesterday.
A call for volunteers to man the
vessels of the Thirteenth destroyer
Squadron, which is to sail January
15 from San Diego for the Orient,
has been received in Pacific Fleet
headquarters. Men who have until
1923, to serve on their present
enlistment are preferred, the call
says.
The Arizona's basket shooters are
to play the Mississippi's quin-
tet and the outcome of that game
will determine whether the
Arizona five will get a return
match with the basket shooters of
the Nevada. The Nevada ball
tossers beat the Arizona men, 40
to 22, last Wednesday.
Although practically every ship
in the Pacific Fleet has discon-
tinued publication of its weekly
or daily newspaper, the At Em
Arizona, daily news sheet of the
dreadnaught Arizona, will continue
to exist for a time at least. This
is possible, the paper explains, be-
cause the paper is a mimeograph
product and an organ for the dis-
tribution of official information.
The order to cease publication
came from the Navy Department
because of the expense involved.
Orders have been received at
Pacific Fleet headquarters and the
Submarine Base at Los Angeles
Harbor, authorizing commanding
officers to discharge all enlisted
men who have attained the rank
of chief petty officers who request
their discharge in writing. All
such discharges will be granted
without regard to the vacancies
created thereby, the order directs.
Naval officers yesterday pointed out
that most chief petty officers have

JUST LEARNED
WAR WAS OVER.American from Far North
Tries to Enter Army.Was Three Years in Reach-
ing Nome, Alaska.Says Coronation Gulf Natives
Use Bow and Arrow.

(BY THE ASSOCIATED PRESS.)

NOME (Alaska), Dec. 13.—An Arctic adventurer, B. C. Seaman, sailed into Nome from the frozen north this morning, not knowing that the war was over, tried to enlist in the American Army so that he could fight in France.

Seaman said he had been three years getting to Nome from the Coronation Gulf country, which lies far East on Canada's Arctic coast, and during his journey had received no news from the outside world. He left the gulf, he declared, in October, 1918, when he first heard the United States had entered the war. Seaman was formerly a member of the then Royal Northwest Mounted Police.

SCHOONER WRECKED.

Soon after Seaman started for Nome, the small schooner on which he was journeying was wrecked in the ice, he said, and he and his companions were forced to walk twenty-seven days before they came to an Eskimo village. On their way they lived on roots.

Seaman gave an interesting description of the life of the Eskimos of Coronation Gulf. The natives, he said, still use the bow and arrow but are gradually getting accustomed to the use of firearms, which were introduced recently. The natives live on caribou and seal.

A rifle in the Coronation Gulf country sells for \$160, cartridges for 50 cents each, sugar is \$1 a pound, butter \$2.50 a pound and milk \$1 a can, Seaman said.

The cost of clothing, however, is lower, a "parka" cape being sold for \$4, mukluks, or native shoes, for 50 cents a pair and the fur mittens for three boxes of one-cent matches.

Mounted police in the Coronation country get mail sometimes three years old. Once, before he left, a constable got quick service on a letter, it being delivered from England in thirteen months.

Seaman said he probably would go back to Coronation Gulf, "where a big pot of trouble like a world war doesn't reach us until it is all over."

STATE BONUS LAW
DECLARED VALID.

(BY A. P. NIGHT WIRE.)

SALEM (Or.), Dec. 13.—The state soldiers' bonus law enacted at the last session of the Legislature and approved by the people at the special election June 7 was declared constitutional today by the state Supreme Court in a friendly suit brought to remove question as to the validity of bonds to be issued under the act. Cash payments or real estate loans to ex-service men are authorized by the law.

Christmas
Morning

THE holiday season is close upon us. Naturally, your mind dwells much on the presents.

Why not bestow on your wife, mother, sweetheart, brother, sister or friends gifts of time outlasting value—something that will be each year a substantial reminder of your esteem—something that in the course of a very little while will not be discarded, worn out or consumed?

Each year in our modern life the gift question becomes more and more perplexing. If figures and statistics could be obtained, the huge sums of money wasted each Xmas on foolish gifts would be astounding—but a "Partnership" with the Durants solves the entire question. There can be nothing more acceptable than a partnership in an industry that is one of the West's most important and growing rapidly. This gift would be an incentive to the recipient to build. It would be a real financial start—perhaps the basis of a fortune.

OUR PLAN

We have, at the present time, over 2700 partners. It is our desire to increase this number by 100%. You can buy a "Partnership," either large or small, the certificates will be delivered to the person whom you designate on Christmas morning, making them a part owner in this Western industry, the Durant Motor Company of California.

We have printed a booklet showing in detail our organization and car, and will be glad to give you full information as to how you can turn your Christmas gifts into profitable ones. Clip coupon below and check line corresponding to person whom you wish to give the gift and mail to us for full particulars and booklet.

GETS EDUCATION IN
EXPERIENCE SCHOOL.GIRL WHO SOLD SELF TO GO
THROUGH COLLEGE WISER
BUT NOT RICHER.

(EXCLUSIVE DISPATCH.)

CHICAGO, Dec. 13.—Catherine Peterson Miller, the Joliet (Ill.) high school girl, who sold herself into marriage for \$3000 to get funds for her education, admits she got the education, but missed out on the \$3000. She says she is entitled to a master's degree in the hard school of experience, and that she is convinced it does not pay to advertise.

She was in court today to testify against her husband, James Edward Miller, and Miss Dolores Cawenburgh of South Kaukauna, Wis. She had told them together in a North Side hotel and caused their arrest on charges of disorderly conduct. The court took the case under advisement.

Mrs. Miller, then Catherine Peterson, tiring of the lonesome environment of a small inland city, conceived the idea of selling herself for funds to carry her through college. The first applicant was H. P. Yards of Waukegan, considerably older than herself, but who agreed to play the game square. He had the necessary funds to meet her requirements.

Just before they were to be married a dashing and highly paid barber, James Edward Miller, leaped into the picture and made a whirlwind courtship. The

girl abandoned her Waukegan fiance and was married to Miller. Then began a series of heartbreaking vicissitudes. Miller lost his job the day after they were married and the bride took her first course in going hungry and staying off insolent hotel proprietors. Finally she could endure it no longer and fled back home. Miller scaped together some money, went after her and brought her back. It was only a few days until the wolf was again whetting his teeth and claws on their theoretical doorstep, so she fled again. Word came to her that her husband had money wherever to entertain the Wisconsin girl and she came to the city and trapped them.

JAP TO LIFT BAN
ON FOREIGN RICE.

(BY CABLE AND ASSOCIATED PRESS.)

TOKIO, Dec. 13.—The Japanese government, in its efforts to offset the home rice shortage, caused by crop failure under bad weather, has decided to lift import duties for a period on foreign rice, and enter the importation by itself.

The government plans to bring in a stock of foreign rice aggregating 2,500,000 koku, or approximately 17,500,000 bushels.

of Texas Men.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Dec. 13.—A warning that "Texas oil promoters of unsavory repute" are about to launch a drive for California money by offering oil units or production contracts for sale, was issued today by E. C. Bellows, state commissioner of corporations. He said:

"The public is warned that concerns seeking to avoid the supervision of this department in the sale of securities should be viewed with grave suspicion, and investors should seek information from the State corporation before, and not after losing their money," said the statement.

Inquiries before purchase are much more effective than complaints after your money is gone."

SAN FRANCISCO BAY.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Dec. 13.—The Hanlon Dry Dock and Shipbuilding Company yesterday entered into agreement with the Navy Department to salvage the destroyer De Long, which grounded on the beach south of San Francisco December 1. Under the agreement the dry dock company is to receive all support and salvage of the ship.

BRIDGE MAY BE ERRECTED
SOUTH OF HUNTER'S POINT,
SAYS CAPITAL.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Dec. 13.—The War Department gave San Francisco permission to build a bridge across San Francisco Bay south of Hunter's Point, providing that no low bridge be built north of San Mateo, it was announced by Col. Herbert Deakney, in charge of the construction of river and harbor fortifications. Hunter's Point is approximately four miles south of Market street, the main business street, and San Mateo is twenty miles south of the city. The department's order followed a preliminary survey for the bridge by Ralph Modjeski and John V. Davies, eastern engineers.

A tunnel may be constructed at any point, provided that the highest part of the structure is placed at least fifty feet below mean low water and proper compensation is made for necessary obstructions. The combined bridge and tunnel proposed by the engineers will be approved if terminating south of the proposed Alameda naval base.

Not more than one crossing of any kind will be approved north of San Mateo at the present time, the department ordered.

WASHINGTON NEWS IN BRIEF.

(EXCLUSIVE DISPATCH.)
WASHINGTON, Dec. 13.—The four-power treaty, which terminates the Anglo-Japanese alliance and establishes an understanding to stabilize peace in the Pacific, was signed today.
Disaffection with the four-power treaty is becoming increasingly evident among Democratic Senators, especially on the part of those who strongly supported former President Wilson in his fight for the League of Nations.
The Chinese delegation intends to demand tomorrow an examination of the treaties and agreements concluded by and between China and Japan in May, 1915, as a result of the twenty-one demands and the Japanese ultimatum.
Agreement on the naval ratio may be reached tomorrow by an agreement permitting Japan to retain the Mutsu, the United States the West Virginia and another capital ship now building and Great Britain an equal amount of uncompleted British capital tonnage.
President Harding will not call another international conference before the present conference completes its work.
In order to relieve the sugar situation a resolution will be introduced in Congress providing for the importation of 500,000 tons of sugar into the United States under bond for re-export after refining.
The House bill designed to prohibit newspapers from publishing any information that might encourage gambling was vigorously assailed as a threat to the freedom of the press before the Senate Judiciary Subcommittee today.
Proposed increases in duties on distilled spirits and champagne were opposed today at the tariff hearing before the Senate Finance Committee on the ground of placing an undue burden on the sick.

In-waiting to Empress Charlotte, the "Sad Princess of Europe," and to the correspondent she recently recalled some interesting memories of court days during the Mexican Empire.
Maximilian, the ill-fated Austrian Prince, who was set up as head of the empire by Napoleon III in 1864 and three years later was shot as a usurper by order of the Mexican President, Juarez, was described by Senora Degollado as "a beautiful character, sympathetic and capable but too amiable to govern a nation of malcontents."
Empress Charlotte, daughter of Leopold I, as King of the Belgians, who is still living in Brussels, according to Senora Degollado, was "an ambitious genius who was always striving to advance her husband and whose mind became unbalanced when she found the path blocked."
Senora Degollado has never seen the Empress since she departed from Mexico City in July, 1866, to plead the cause of the empire before the French monarch and later to go to Rome to attempt to secure the good offices of the Pope. So far as she knows no direct word has been received in Mexico from Charlotte in more than fifteen years and that only an incoherent note to the wife of the former high Mexican official.
"The Empress left hurriedly on her European trip," said Senora Degollado, who despite her 80 odd years retains a remarkably clear memory, "and was accompanied only by her personal maids. For many days prior to her departure there were evidences of her falling reason and we were not surprised to hear of her acute affliction several months later. I am positive that there is absolutely no truth in the reports that she was poisoned before she left Mexico. And the Emperor! He was possessed of every kind element of nature. He was too good. He listened to treacherous advice and was shot. That day was an evil one for Mexico."
Senora Degollado was in Mexico City when Maximilian was shot in Queretaro and although she had an opportunity to view the body before it was shipped to Vienna she declined, preferring to remember him as she knew him. Within a few days after the Emperor's death, she and her husband fled to Guatemala where they lived for several years until Porfirio Diaz became president of Mexico.

DRINKERS IN RESORTS TO BE IMMUNE.

Dry Officers Warned to Go After Important Violators of the Law.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, Dec. 13.—Persons caught drinking liquor in resorts and other public places where the selling and distribution of liquor is prohibited, will not be prosecuted, Robert H. McCormack, assistant United States Attorney General in charge of prohibition prosecution here, announced today.
McCormack's decision runs counter to a decision by E. Forrest Mitchell district prohibition enforcement officer, that all who are caught drinking liquor which has been served or otherwise obtained illegally will be arrested and prosecuted.
"It is ridiculous to assume that we could obtain many convictions on such a proposition," McCormack said today, in refusing to file information against Frank J. Millard, W. Allen Hope, Fred Fisher and Arthur Koop, who were arrested while enjoying the hospitality of Louis Klein of Santa Clara. "The time of the prohibition arresting officials could be spent much more profitably in hunting out the big distillers and brewers of illicit liquor."

(BY CABLE AND ASSOCIATED PRESS.)
LONDON, Dec. 13.—Arrests throughout India now total 600, according to official advices. Certain For Veterans' Bill.

(EXCLUSIVE DISPATCH.)
WASHINGTON, Dec. 13.—The adjusted compensation bill for veterans of the World War will be passed by Congress within the next ninety days, Hanford MacNider, national commander of the American Legion, was informed yesterday by Senator McCumber, author of the bill in the Senate, and Congressman Joseph Fordney, who introduced the measure in the House. The measure will become effective in July, 1922, when it originally provided for, Commander MacNider was further assured.

URGES DISARMAMENT OF INDUSTRY STRIFE.

(BY A. P. NIGHT WIRE.)
MILWAUKEE, Dec. 13.—Urging a disarmament of industrial strife, "better work and more of it," and a "living wage" rather than a living wage for workers, Secretary Davis today urged employer and employee to "drop their grievances and go to it," in an address here.
"We can have, we must have, more peace in industry," he declared.
"Let us stop the battles and the warfare in industry," he said. "Let us say to employer and employee 'disarm.' In the past the strike may have been the only means to gain right wages and working conditions. Now the strike is becoming a back number. I hate both the strike and the lockout. Both are always the separator, never the co-operator."

MAY CANCEL WAR DEBTS.

Lloyd George Believed to Be Ready to Take Action Without Reference to United States.

(BY A. P. NIGHT WIRE.)
WASHINGTON, Dec. 13.—Some foreign diplomats in attendance at the Arms Conference have received word which they interpret as indicating that Premier Lloyd George of Great Britain is preparing to take the initiative in world economic matters, having become convinced from the results of inquiries made here that the American government does not intend to call an international economic meeting, at least not in the near future.
His plan, according to the information, contemplates cancellation of all war debts owing to Great Britain by Italy, France, Belgium, Russia and the smaller Balkan Allies, amounting with interest to upward of \$2,000,000,000 sterling.
AMERICA LEFT OUT.
The Premier, it is recalled, proposed to President Wilson that all inter-Allied debts should be canceled, but his present design, according to the understanding, does not include renewal of that suggestion to the United States.
He is said to intend to annul the debts of the other countries due Great Britain subject to conditions, one, it is understood, being that France should forgive the debts of Allied countries to her.

amounting to about the equivalent of \$2,000,000,000 and another being a reduction of German reparations due France by 12,511,000,000 francs.
This is the amount France borrowed of England during the war and is about as large a sum as that loaned to France by the United States, which was 12,585,000,000 francs.

TO ACT INDEPENDENTLY.
The idea of the British government acting independently of the United States in the cancellation of the debts, according to foreign officials, appears to have originated with Austen Chamberlain when he was Chancellor of the Exchequer. Lloyd George is understood to have been allowing the matter to rest until the present, but the approaching crisis in the finance of several countries, particularly Germany, has led to the preparation of a plan by Worthington Evans and others which, it is expected by the foreign diplomats, Lloyd George would present to an economic conference, if one should be called on his own initiative.

A tribute to honest value

During 1921 the sale of Cinco cigars month by month has exceeded monthly records for any other year since the Eisenlohr business was established more than 71 years ago.

This fact is highly significant in a year that has witnessed the most carefully restricted buying in all lines.

It is again indisputable evidence of wide-spread confidence in the honest value of the unvarying quality of Cinco cigars.

Internal Revenue Collector Discusses the New Act; Reaction Following Violent Advance of Saturday and Monday Considered Natural.

BY CHAPIN HALL.

There is almost as much curiosity, uncertainty and misinformation concerning the new revenue act as when the law was originally put into effect, three years ago.

At the office of the Internal Revenue Collector it was said yesterday that the enactment has brought a flood of inquiries. A few of the most frequently asked questions have been answered by John J. Carter, the collector, who passes his findings along for the benefit of the tax-paying public.

The revenue act of 1921 became effective November 23, "unless otherwise provided for."

To avoid error in the preparation of their returns and later difficulties with the Bureau of Internal Revenue, taxpayers are advised to carefully note the changes and when they become effective.

The excess profit tax is repealed as of Jan. 1, 1933. The rates for 1932 are unchanged, and range from 1 per cent on the amount of net income between \$5000 and \$10,000 to 6 per cent on the amount of net income in excess of \$10,000.

For the calendar year 1932 the surtax rates range from 1 per cent on the amount of net income between \$5000 and \$10,000 to 6 per cent on the amount by which the net income exceeds \$10,000.

The exemption allowed for a dependent is increased from \$200 to \$400. Married persons living with husband or wife and head of families are allowed a personal exemption of \$2500 (instead of \$2000) unless the net income is in excess of \$5000, in which case the personal exemption is only \$1000.

The act provides that in the case of the reduction of the personal exemption from \$2500 to \$1000 operate to increase the tax which would be payable if the exemption were \$2500 by more than the amount of the net income in excess of \$5000. This is to overcome the disparity in the case of two taxpayers, one of whom is just within the lower \$5000 exemption and the other just within the higher \$2500 exemption.

Single persons and married persons not living with husband or wife, are allowed a personal exemption of \$1000. Nonresident aliens are allowed a single personal exemption of \$1000. Persons having gross incomes for 1932 of \$5000 or over are required to make a return, regardless of the amount of net income.

Provision is made for the repeal as of Jan. 1, 1933 of the tax on stockholders of a personal service corporation or subchapter S corporation. After that date such corporations are to be taxed in the same manner as other corporations.

The income tax on corporations for the calendar year 1932 and thereafter is increased from 10 to 12 1/2 per cent. The \$2000 exemption heretofore allowed corporations is to be granted only to those corporations whose net income is \$25,000 or less.

Many persons are under the impression that the taxes on ice cream, soft drinks, etc., monthly returns of which are required, have been repealed with the enactment of the new act. These taxes remain in force until the end of the calendar year 1931.

No change is made in the tax on admissions, except that after Jan. 1, 1933 there will be no tax where admission is 10 cents, or less. Effective Jan. 1, 1933 the following taxes are also abolished: musical instruments, sporting goods, chewing gum, portable electric fans, thermos bottles, fur articles, pleasure boats and pleasure canoes (unless sold for more than \$100), toilet articles, medicines and numerous articles of apparel.

On and after Jan. 1, 1933 the tax on various works of art is reduced from 10 per cent to 5 per cent, the tax on candy from 5 per cent to 3 per cent and the tax on carpets, rugs, trunks, valises, purses, fans, etc., from 10 per cent to 5 per cent in excess of specified amounts to 5 per cent of sales price in excess of specified amounts.

The tax on parcel post packages is eliminated effective Jan. 1, 1933. The new act provides that no taxpayer shall be subjected to unnecessary examinations or investigations, and only one inspection of his books of accounts shall be made for each taxable year, unless the taxpayer requests otherwise, or the commissioner notifies the taxpayer in writing that an additional inspection is necessary.

The period for filing returns on the calendar year basis is from January 1 to March 15, 1933. This year, as last, the tax may be paid in full at the time of filing the return or in four equal installments, due on or before March 15, June 15, September 15 and December 15.

Copies of the revenue act may be had by application to the office of the collector.

LIBERTY AND OTHER BONDS. Liberty bond holders are richer by over \$2,500,000,000 than they were at the low point of the market. For instance fourth Liberty bonds which have sold as low as \$2 have since been above \$3.

The enhancement in value of this one issue alone is more than \$1,000,000,000.

Bond & Goodwin & Tucker, Inc., pointed out yesterday that in addition to the other large volume of interest that will be paid to bond holders this month the United States government will tomorrow distribute \$148,000,000 on interest on first Liberties and Victory notes, a disbursement which will be a contributing factor in the continued strength of the bond market.

A bond forecast issued yesterday from A. W. Coote's office reaches the conclusion that there is to be a steady increase in value of investment issues for the next eighteen months. "Remember," it is said, "that money will not remain idle, but will be invested in high grade securities at current prices."

"To determine whether or not good bonds at their present price levels are attractive purchases you must give considerable thought to the position and trend of the country's money supply. As our money supply, reflected in commercial paper rates, continues to become more plentiful and interest rates lower we must conclude that all real investment issues will

appreciate in value unless present prices discount the immediate future.

"It is our belief that: First, there is still too wide a variation between bond yields and the price of money. Assuming the price of money remains constant, bond yields must continue lower and, therefore, bonds appreciate in value. Second, a country's money supply will continue to increase and interest rates will continue to lower levels, thereby widening the margin between bond yields and interest rates, assuming bond yields remain constant. This situation alone would continue to put up bond prices. Third, the country's money supply during the next two years at least will continue to increase, and the need in general will probably not be active enough during this period to cause any substantial decrease in money supply."

GET RICH QUICK. Circulation of Los Angeles investors has been stirred by the New York house which is specializing in Austrian exchange. A cult contained in the publicity reads: "For \$70 American money you can buy a 50,000 kronen 5 per cent bond of the city of Vienna, Austria. With exchange at normal, your bond would be worth \$10,150, which is \$148 for \$1."

The minor objection, which some chase fakers might speculatively make, that Austrian exchange is about as far removed from normal as the Mars Star while and when (note that when the board National Bank is from the corner of Seventh and Broadway, is logically (?) and broadly swept aside, just like this:

"Never mind about the economics of the situation. Don't worry about the intricacies of foreign exchange. Call it a gamble, if you choose, but get one of the bonds now. Put it away for a while and when the market is hot (if you please) the dollar value of the Austrian kronen advances, you should make an amazing profit."

While this department does not often indulge in tips, here is a hot one right off the griddle: Put the funds you may have set aside for a future fortune via Austrian exchange in Salvation Army Christmas drives. The American exchange in Salvation Army Christmas drives. The American exchange in Salvation Army Christmas drives.

LUMBER MARKET. The outstanding factor in the lumber market is the continuance by Japan of heavy purchases of lumber on the Pacific Coast. Japan has prohibited cutting in the forests of the Empire, not as a matter of conservation, but for the purpose of controlling the flood situation. Therefore, the Japanese have been forced to turn to the United States for the purchase of lumber and continue to make very substantial purchases. Cutting from the Japanese forests is not permanently forbidden, for modification of the order is expected after the report of a commission of Japanese engineers who are making a study of the situation and who will submit permanent plans for flood control. West Coast producers are encouraged over the reduced rates which have been announced from territory. These reductions, according to the American Lumberman, will be put in effect December 24 and will help the West Coast producers to extend their markets.

ANOTHER NEW BANK. Monterey Park is to have a new national bank, charter No. 12,681 having been issued by the Comptroller of the Currency, according to (Continued on Fifteenth Page.)

BEANS REGAIN LOST GROUND; VEGETABLES NEED RAIN; PACKERS' STRIKE FAILS TO AFFECT PRICES.

The recent advance in price of Henderson Bush beans has stimulated the movement in the San Fernando Valley, where most of the nearby supplies of this variety are grown, to such an extent that the growers there are nearly sold out. During the last three weeks, according to F. E. Harris, a bean authority, the price of the Henderson Bush bean, (commonly known as the baby lima) has gained approximately 1 cent a pound and is now about 5 1/2 cents a pound.

Growers last year received for 5 1/4 cents a pound for their product and the present price advance has been of great encouragement. A somewhat shorter crop and stronger demand are the reasons for this improved condition.

The bean movement in the State is considerably heavier than it was last year. During October 785 carloads of dried beans were shipped from California compared to 375 carloads during the same month in 1930. Incomplete reports of shipments during November give 454 carloads compared to a total of 435 carloads shipped in November, 1930.

FOOD PRICES. Potatoes dropped yesterday to the lowest prices paid all season for the fall crop. Sales of medium grade stockton spuds were reported at the Wholesale Produce Terminal as low as \$1.40 a hundred, although the highest quantities brought as high as \$2.25. Shipments to Los Angeles are coming in heavily now and the market is expected to have reached the saturation point. Potatoes are one commodity that suffers from an inelastic demand. Even when prices cannot persuade people to eat any more than the normal amount of potatoes. This irresponsiveness of the market to the recent price movement of the northern-grown tubers.

The situation in onions is more favorable to the grower, according to H. E. Trust, a representative of the United States Bureau of Markets. White onions, especially, are enjoying good prices and the stock of this variety now on hand in Los Angeles is short and closely

BY ALEXANDER DANA NOTES. (EXCLUSIVE DISPATCH.)

NEW YORK, Dec. 13.—Downward reaction on the foreign exchange market, after so exceedingly violent an advance as that of Saturday and Monday, was altogether in line with the natural movement of financial markets. It was noteworthy first, that the market steadied and recovered slightly after each lowering of quotations and second, that closing rates remained substantially above last week's finals.

In the stock market today the procedure was again the bidding up of prices for stocks which are controlled by purely speculative pools. It is never easy to take a market seriously when the leader of its movements is so notorious a tool of professional manipulators as Mexican Petroleum.

GERMAN CURRENCY. The only news of financial interest from Germany was the bank's statement for the first week of December, showing further increase of 1,446,000,000 marks in the paper currency. It has risen 10,000,000,000 in a month, and 20,000,000,000 since the close of August.

The price of cotton declined further, though with partial recovery before the close; the New York spot price ended nearly 4 cents a pound below the high point reached at the time of the government's October underestimation.

Monday's foreign trade statement showed that, contrary to expectation, the amount of gold imported had increased in November; today's classified gold import figures of the Federal Reserve Board showed who had sent it.

In the ten-day period of last August, in which gold arrivals reached the year's high mark of \$31,605,000, Europe sent \$23,925,000. In the last ten days of November, total arrivals were nearly \$6,000,000 less than in the August period, yet \$23,445,000 came from Europe. Out of the \$66,000,000 total for the year up to December 1, \$375,000,000 was shipped direct from France and England, almost equally divided.

FOOD MARKET REVIEW. Beans Regain Lost Ground; Vegetables Need Rain; Packers' Strike Fails to Affect Prices.

held. Brown onions are not bringing the prices that their white relatives are selling for at present.

The lack of rain has affected the quality of many Southern California vegetables and cauliflower and lettuce have been especially heavy sufferers. This is normally the heavy shipping month in this district for cauliflower, but the rainfall shortage and the frosts last week have cut off the shipments very sharply. Lettuce shipments are continuing at the usual rate, but the quality is very poor, it is reported. Luckily for the Southern California grower, there are few regions that compete with him on these vegetables at this time of the year and he is in a position to force the nation's markets to take his offerings, regardless of quality.

Prices of produce were somewhat higher in Los Angeles last week because of heavier shipments to the East in anticipation of the holiday demand. These shipments are over and lower prices may be expected, according to general market opinion.

PACKERS' STRIKE. So far local retail meat prices have not been affected by the Chicago meat-packers' strike. Reasons for this are that the Chicago yards have not fallen off appreciably as yet and as long as the cattlemen display this confidence in the ability of the large companies to control the situation, prices will not be altered. Local meat men say. If at any time during the progress of the strike, however, the live-stock men lose this confidence in the packing companies and curtail their shipments, prices may be forced to advance immediately. The strike itself appears to have no direct bearing upon the price situation. Chicago receipts are the determining factor. As long as they keep up, prices will be unchanged, according to the opinion of most local meat dealers.

Power for Industries In Prosperous Communities

FROM the streams of the High Sierras, the Nevada-California Electric Corporation derives 80% of its total generated capacity of 77,639 horsepower.

This power is transmitted to prosperous communities of solid growth and development in Inyo, Kern, San Bernardino, Riverside and Imperial Counties of California. In this territory it supplies energy for irrigation, mining, heating, lighting and driving the machinery of the chemical companies in the desert counties and the refrigerating companies of Imperial Valley.

From these widely diversified industries the Company derives

its earnings. It is not dependent upon any one community, nor upon any one of these industries.

The earnings of the Company have always been substantially in excess of interest charges on its First Lien Gold Bonds. For the three years and ten months ending October 31, 1931, these earnings have averaged 2.2 times the interest charges.

These dependable earnings are the basis for our recommendation of this Company's First Lien Gold Bonds, series "A," maturing October 31, 1935. Priced at 95 and yielding 6.45%, they are an attractive investment. Write for information or call at our office for information.

\$10,000 to Your Heirs

Fifty dollars monthly paid into this association for eleven years only will give you an annuity of \$600 for the remainder of your life, and in addition \$10,000 will be paid your heirs.

Fifty dollars monthly is but a small part of the average man's salary, but \$600 a year is a considerably larger income than the average man receives after he is incapacitated for regular work. An estate of \$10,000 cash is a substantial bulwark against want for your heirs.

NEW YORK STOCK EXCHANGE

(BY A. P. NIGHT WIRE)

NEW YORK, Dec. 13.—Financial markets today experienced a radical change from recent anomalous conditions. Foreign exchanges were dull and decidedly lower, but stocks of a speculative character were active and strong.

Reactions in foreign currencies, which ranged from almost 7 cents in sterling and 10 to 25 points in allied or continental remittances, were regarded as a natural sequence of the recent phenomenal advances.

Resumption of bullish operations in the share list focused around the oil and metals, with a liberal sprinkling of steel, equipment, chemicals and related issues. Outstanding features embraced Mexican and Pan-American petroleum, Houston, Federal, mining and smelting, common and preferred, and the cheaper coppers at extreme gains of 1 to 6 points.

Shorts were severely punished by the movement in oils, which gained additional impetus from reports that Mexico had decided not to enforce the higher export tax on those products.

Rails became heavy in the final hour, when a series of drives against some of the cheaper issues impaired gains elsewhere. Mexican Petroleum was the one noteworthy exception, closing at its maximum price. Sales, \$55,000 shares.

All of the day's call loans were made at the fixed rate of 5 per cent. Time money held at the same quotation but some ninety-day offerings were taken at 3-4 per cent.

Signing of the four-power treaty created a demand for foreign bonds. Liberty Bonds were steady, but rails showed gains and losses. Total sales, par value, \$17,350,000.

Doesn't Know
Where to Go.

(BY CABLE AND ASSOCIATED PRESS.)
RIGA, Dec. 13.—Six deportees from America are here temporarily with no place to go, and all are facing deportation from Latvia within a few days.
JOSEPH Ruzicki, Jacob Abrams, Hyman Iachowsky and Samuel Lipman, who were pardoned for their alleged seditious activities by the United States on the condition that they go to soviet Russia, are in a concentration camp at Riga, awaiting permission to enter Russia. Abrams's wife also is in the camp. Emma Goldman and Alexander Berkman said today that Latvia on December 17 or be sent back to Russia, are still awaiting a chance to go somewhere.
Berkman said today that **Miss Goldman** was ill and extremely indelicate.
"Our plans are still extremely indefinite."

CUPID SAVES GIRL
BY LUCKY THIRTEEN.

BULGARIAN MISS
ADMITTED TO UNITED STATES BY SMALL MARGIN.

[EXCLUSIVE DISPATCH.]
NEW YORK, Dec. 13.—In a nip and tuck race, Cupid and the immigration quota law, the boy with the bow and arrow won by a slim count of thirteen on Ellis Island when Miss Catherine Nicolova from Bulgaria was admitted to the United States to become the bride of Stefan Andreoff of Chicago.
Miss Nicolova had watched the Bulgarian yearly quota from her home in the Balkans, and seeing that it was certain that Latvia to America five months ahead of time agreed between herself and Andreoff.
Today she watched the count anxiously. There were only twenty-nine left in the Bulgarian quota, and reason was certain that many more than twenty-nine were in the steerage of the Aquitana.
Luck was with her. She was sixteenth in the list, with thirteen to go. She left the island declaring thirteen was her lucky number from now on.

WATER COMMISSION
POWER CURTAILED.

MUST GRANT ALL PETITIONS
PROPERLY MADE, RULING
OF SUPREME COURT.

[BY A. P. NIGHT WIRE.]
SAN FRANCISCO, Dec. 13.—The State Water Commission is mess- by an administrative agency with must grant all proper petitions to appropriate water from California streams, the State Supreme Court held today. Its opinion reversed the decision of the Water Commission denying without a hearing the application of the Tulare Water Company to appropriate water from the Kern River for irrigation purposes.
The obvious aim of the Water Commission Act, according to the Supreme Court, is that this shall not "abolish, but regulate and administer the privilege of appropriation."
It affords a way to appropriate water conform to the provisions of the law the commission must grant it, the court held.

JURY SAYS GUILTY.

Fresno Man to Receive Life Prison Term.

[BY A. P. NIGHT WIRE.]
FRESNO, Dec. 13.—Julius Edgar Welmer, on trial here for the murder of his wife on July 4, was today found guilty of murder in the first degree and will be sentenced to life imprisonment on Thursday. The trial of the assassin occupied six days.
Welmer, it was charged, slashed his wife's throat with a razor after she had been told that he had posed a plea of insanity, attempting to prove that Welmer had a violent temper, and that he was not responsible for the crime.
The jury spent six hours in deliberating on their verdict.
The prosecution of the case was handled by Deputy Atty. H. J. Carling and Deputy Penn. Cummings.

BUREAU OF AVIATION
BILL IS INTRODUCED.

[BY A. P. NIGHT WIRE.]
WASHINGTON, Dec. 13.—Legislation to carry out the recommendations of President Harding for creating a bureau of civil aviation was introduced in the Senate today by Senator Wadsworth, Republican, New York. The proposed bureau would be established in the Department of Commerce and be supervised by a commission.
Functions to be assigned to the bureau would include provisions to lay out air routes and landing fields, to establish airway regulations governing the carrying of passengers and freight - by the civil craft.

CHINESE ARRESTED
IN CRIME MYSTERY.

[P. DAY WIRE.]
FAIRFIELD, Dec. 13.—Two Chinese, whose names were not given, were in the County Jail at Fairfield today following finding yesterday of the body of Harry J. Rembeck, a retail druggist, beside the road a half mile east of Millar Station on the Sacramento-San Francisco short line railroad.
Three bullet holes were in Ju's head, and near the body was a new revolver with only one shell discharged.

Toilet Wares of Typical Feagans & Co. Smartness

Eloquent in Gift Sentiment

A gift of finest toilet ware, such as Feagans & Co. present for your consideration, becomes a cherished possession—intimate, personal, loved and prized.

Its commercial aspect must be subordinated to its artistic merit and its quality appeal if it is to be differentiated from the commonplace.

Feagans & Co. present only the very unusual and yet selections here are wonderfully comprehensive.

There are masterfully designed sets in solid gold, others in beautiful enamels with exquisite decorations, others in Sterling silver and still others here direct from Paris in real French gilt bearing painted ivory miniatures of the Louis XV Period, and there are smart specially designed masculine sets for men, and other sets for boys—and dainty enamel sets for the wee tots.

Many of the services are in complete open stock so that you may merely start a service with the thought of adding to it as time goes on.

Exclusive gift things for women, in dainty enamels—Dorcas, Powder Pensils, Cologne Bottles, Salts Bottles, Mirrors, Vanity Cases, Cigarette Cases, Knives, Pencils, Tange Bags, Vanity Cases and other trinkets.

LET THE BAKER BAKE YOUR BREAD

GREATER STRENGTH Fewer Spoonfuls

The value of baking powder is based on its leavening strength. You can't judge it by the size of the can—or by the amount you get for your money. You must estimate it by the amount of baking powder used in each baking and the results you get.

CALUMET

is the greatest value ever offered in Baking Powder—it has greater raising "force"—it goes farther than many of the other brands. You use only a rounded or heaping teaspoonful where many others call for two teaspoonfuls or more.

But Baking Powder is not all you'll save when using Calumet. You save baking materials. Calumet never fails. The last level teaspoonful is as powerful as the first. Calumet is perfectly manufactured—keeps perfectly—and is moderate in price.

One trial will satisfy you of these facts—and demonstrate beyond doubt that "Calumet spells economy."

Your grocer sells it on a guarantee of money back if you are not pleased with results.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authority.

PROTEST STORM DRAIN SEWERS.

Thousands Expected to Toll
Troubles to Council.

Hearing Set for Tomorrow
on Improvement Plan.

Hollywood and Wilshire Are
Affected by Scheme.

The City Council chamber at the City Hall is expected to be thronged tomorrow morning with property owners who will be present to protest against the adoption by the Council of an ordinance providing for the building of the proposed \$2,800,000 Arroyo de la Sacatela storm drain sewer system for the Hollywood and Wilshire districts. Petitions of protest bearing several thousand signatures have been filed with the Council, the petitioners charging that the assessment is inequitable, that the improvement is unnecessary and will not benefit a large proportion of the property owners who will be assessed.

Examination of the records at City Hall yesterday showed that the assessments will vary from a few mills to 2 1/4 cents per square foot, or from \$27.50 to \$130 for each lot of the usual size of 50 by 150 feet.

The higher assessments are paid by those owning property in the low-lying parts of the district, while property owners of Hollywood and sections reaching toward the foothills will pay the lowest assessments.

Ninety per cent of the protests filed, it was stated at the City Engineer's office yesterday, were made by property owners of the Hollywood district.

EIGHT YEARS TALK.

The present proceedings are the result of eight years' discussion over the project, initiated originally by property owners who asked for protection from the storm waters. Those asking for the improvement contented that the storm drain sewer system will be a nuisance due to winter storm waters complained of, particularly by the State Board of Health, as well as by residents in the district, and further the advocates of the improvement declare that it will permit the opening up of large areas in the district, which are now unimproved by reason of the damage due to winter storm waters.

The proposed sewer will serve an area of sixteen square miles, and the main sewer will be five miles in length, while the total length of the system, including the main sewer and laterals will be thirty-seven miles.

Some of these laterals have already been built and are in use, and property owners who were assessed for the cost of these laterals have received, in the fixing of the amount of their assessment for the Arroyo de la Sacatela system, a proportionate reduction in their charges to cover the amounts already paid in for the sewers already built, and which will be linked up with the new system.

START NEAR BATHS.

The sewer system will start near the Elmini Baths property and will follow the Arroyo de la Sacatela and Vermont avenue, and then after traversing the Wilshire and Hollywood districts, will turn west to Kingsley Drive, then south to Ninth street, then west to Third street, then south to Country Club Drive, and on to Pico street and Rimpau avenue, where the storm waters will be permitted to flow through ditches into Ballona Creek and thence into the ocean.

The sewer will vary in size from twelve-inch pipe to large reinforced concrete arches measuring twenty and a half feet by eleven and a half feet. The average depth of the sewer will be three feet. Rain water will flow from the gutters into catch basins and from these pass into the sewer.

The proceedings for the improvement are being brought by the Council under the Workman Act, and under the provisions of the Council has the power to disregard the protests, even should they represent a majority of the property frontage in the district, and order the work done. The protests filed of record, City Engineer Griffin said yesterday, represent only 14.88 per cent of the property frontage in the district.

SOCIETY DISTRIBUTES MILK BOTTLE FUND.

CHILD WELFARE SERVICE TO
GIVE MOTHERS HELP
WHERE NEEDED.

Disposition of funds raised through the milk bottles bearing the slogan "Drop a Penny, We Need Many" was made yesterday at a meeting of the Southern California Child Welfare Service in its headquarters in the Front Building.

The funds will be used as follows: Bath robes for children of the Mother Gabriel Preventorium, 125; two months' membership at \$10 a month in the Mothers Educational Center; \$10 a month to the Macys Street School; \$10 a month for milk for undernourished children of the Second and Boyle avenue school; \$15 a month to the Normal Hill Center for work among children; two quarts of milk daily to a family of six children, and \$12.00 for milk for another family; \$18 a month for three months to a chambermaid in a hotel for the care of her two children, and \$25 for a Christmas fund for toys.

It was announced that Mrs. J. W. Montgomery will entertain members of the society next Monday at her home in Oxford street. The members will bring articles to fill 500 Christmas sacks for children.

Mrs. Grant Gaucher is president and Mrs. M. E. Hurley, secretary, of the society.

**SOCIALIST SPEAKERS
BARRED OFF STREET.**
The City Council yesterday denied the request of the Socialist Labor party for permission to use the corners of Wall and Fifth streets for street speaking.

MAY LINK TWO WITH KILLINGS.
Fake Plates on Stolen Auto Land Thieves in Jail.
Were in Boyle Heights When Policemen Were Slain.
Prisoners Deny Connection With Double Murder.
Fake license plates on a stolen automobile yesterday were the means of landing Frank Harland, 24 years of age, and Robert De Rolf, 39 years of age, in the City Jail on charges of grand larceny and also started officers on an investigation that they believe may connect the two men, with the slaying of Patrolmen Harry Clester and William L. Brett.
Trapped in a rooming-house at Seventh and Flower streets by Detectives Ervin, Hiseok and Raymond of the theft bureau of the Automobile Club of Southern California, De Rolf and Harland were taken into custody after the stolen automobile bearing the false license plates had been discovered parked before the house. In the rooms occupied by the two men the officers found three revolvers and a quantity of jewelry and furs.
Investigated at Central Police Station, a record of seven arrests was found against Harland, but none was discovered for De Rolf. Both men, the police say, confessed to stealing the automobile here some weeks ago, but denied any connection with the killing of the police officers.
Efforts were made yesterday by the detectives to learn where De Rolf and Harland got the jewelry and furs found in their rooms. The suspects told the police that the stuff was left in their rooms by friends.
It was learned after the arrest that the prisoners were out in the stolen automobile somewhere in

MAYOR TERMS VICE TALK EXAGGERATED.
HINTS MOVE TO FORCE OUT CHIEF JONES MAY BE BACK OF IT.
Mayor Croyer announced last evening that he is having made an independent check-up of rumors of vice and open gambling conditions, based on complaints that have reached him.
"I desire to make certain," said Mayor Croyer, "that these conditions under which the law is said to be violated are genuine before taking action. There is a possibility that the very criminal forces working to force Chief Jones out are creating these conditions. If they exist, so that the church and other moral forces of the city will have a case to present against the Chief, I want to find out for myself whether or not an attempt is being made to impose on the church forces and myself so as to create a case against the police head. From my investigations, I am already convinced these reports of law violations are exaggerated."
"I do not know of a single instance where a violation of the law was reported to me or to Chief Jones that an immediate and thorough investigation of this report was not made, and where it was found that the law was being violated, that arrests were not made by the Chief and his men and every effort made to wipe out conditions complained of."

CAMERA MAN IS DEAD.
Services Today for One of Veterans of Cinema Studios Here.
Funeral services will be conducted this morning at 10:30 o'clock at the Overholzer chapel, 1338 South Grand avenue, for Claude Henry Wales, veteran camera man, known for years in the photography studios as "Buddy" Wales.
Mr. Wales, who was 38 years of age, died of heart disease suddenly Sunday at his home, 1315 North Virgil. He was a native of Indiana, but before coming to Los Angeles had spent many years in Alaska, where he was assistant manager of the Alaska-Yukon Steamship Company.
Since 1913 Mr. Wales has been engaged in motion picture work, first with the Ince Studios at Culver City and later with the Chester Comedy Company, and of late years he has been regarded as one of the local authorities on motion picture camera technique.
He leaves a widow, Blanche L. Wales, and his mother, Mrs. C. Stritt of Seattle, Wash. The services will be conducted by Mrs. Harriet Wilkerson, and later the body will be cremated.

FOR CHURCH WORKER.
Bishop to Conduct Last Rites for Mrs. Annie E. Walters.
Funeral services for Annie E. Walters, aged 71 years wife of Rev. Edward Walters and for the last ten years treasurer of the Women's Auxiliary of St. John's Church, will be conducted at 3 p.m. today at the church which she so faithfully served. Bishop Johnson of the diocese of Los Angeles, and the rector, Rev. George Davidson, will officiate. Burial will be in Hollywood Cemetery.
Mr. and Mrs. Walters came to Los Angeles in 1893. Two of their sons are Rev. Hubert L. Walters, rector of St. John's Church at Boulder, Colo., and Rev. Arthur Walters of Tulsa. There were five sons and four daughters, all of whom are living except one son.

HELPS .. DELINQUENT .. CHILDREN.
Social Worker Selected to Head Juvenile Institution.

Miss Margaret Bullen.
MISS Margaret Bullen, acting superintendent of Juvenile Hall, was elected superintendent of that institution by the probation committee yesterday. Miss Bullen has been connected with Juvenile Hall for three years, first as a social worker and later as a matron.
Juvenile Hall now has a population of 150. The number of children under the care of the Juvenile Court has increased, due to the so-called crime wave. Chief Probation Officer Holland states. The probation committee is now planning to take care of this influx by more rapidly getting them out of Juvenile Hall and properly placing them in suitable places.

LOCK TOOK COIN.
Farmer Accuses Two Men Who Were Indicted Yesterday.
E. Welch, a farmer of Munson, Alta., Cal., told the county grand jury yesterday that he sold most of the wheat he had stored in order to raise \$13,000 to invest in a so-called patented automobile lock. He accused D. L. Kiefer and another man, both of whom were indicted yesterday, on charges of obtaining money under false pretenses. Kiefer is under arrest at Milwaukee. The other man has not been arrested. The indictment was returned before Judge Reeva, who fixed bail at \$10,000. Kiefer will be brought here for trial.

EAT THIS FOOD FOR CONSTIPATION AND STOMACH.
A Dish of Cereal Meal Each Morning Makes Bowels Regular as Clock.
Thousands of Men, Women and Children Eating Their Way Back to Health.
Stop Drugs for Constipation—They Can't Cure, But Can and Do Injure.
One Package of Cereal Meal Costs Nothing Unless Entirely Satisfactory.
It is time to stop dragging for cures. You have tried the more pills and laxatives you take, the more you have to take. The fact that you still are constipated proves that they will not cure you. It is just good common sense to eat a delicious, wholesome, nutritious FOOD that will assist Nature in bringing on daily bowel movements—thorough, copious, pain-removing movements. Eat Cereal Meal, as a period of your life. Cereal Meal, the Ideal Health Food, will do this for you.
Cereal Meal, the Ideal Health Food, not only relieves constipation, but keeps the bowels working in a normal, natural manner—movements of the kind nature intended you should have for good health.
Certain elements now missing in the food you are eating CAUSE constipation. Cereal Meal simply supplies these missing elements and Nature does the rest. All the drugs in the world will not add these elements to your food—this is why you are always constipated. Cereal Meal contains no drugs—neither is it to be confused with bran—it is something different.
Cereal Meal is delicious, wholesome, nutritious and is for the entire family from its oldest member to the baby old enough to take solid food.
Eat Cereal Meal and there will be no more constipation—then naturally follow relief from indigestion, headache, nervousness, chronic appendicitis, dull aches and aches, much nervousness, these symptoms and conditions, as a rule, being but secondary to constipation.
Instead of taking pills, laxatives and other drugs that bring bowel movements by irritation, you merely substitute Cereal Meal for the cereal you may be accustomed to eating for breakfast. This is a simple change, and you need not look for a new kind of breakfast—you will not have any griping or diarrhea—you can simply forget that you ever were constipated. For Cereal Meal is a perfect working order and will not WEAR OUT.
If you reside in Los Angeles, purchase a package of Cereal Meal, TODAY, of any one of the Owl Drug Stores, Ventura, J. E. Blackstock.
In many of the smaller towns dealers have not as yet stocked Cereal Meal. If your dealer has none, write direct to The Cereal Meal Corp., 125 Fifth Avenue, Denver, Colo., for the address of your nearest dealer. A free booklet on constipation, prices and full particulars—Advertisement.

FAINTS WHEN SHE TELLS DEATH TALE.
While telling the story of the slaying of her husband, Luis Pio Chavarria, in Justice Forber's court, yesterday, Mrs. Isabelle Chavarria fainted and was carried from the courtroom to be revived.
George Loupas, accused of the murder, was held to answer. The defendant asserted he shot in self-defense.

OR BLACK SHEEP.
 The Burlington Railroad has built a barn in Illinois that will hold more than 70,000 sheep. There must be a large expectation on next season's output of lambs.

HARMONY NOTE.
 If Fritz Kreisler accepts appointment as Austrian Ambassador to this country and Paderewski becomes the representative of Poland the concert of nations should start off with some grand bursts of harmony.

ON THE WIRE.
 Chicago now has over 600,000 telephones in use. This is more than they have in all Russia, they need them in Chicago so that the natives may make inquiry about the departure of the trains for Los Angeles.

A BETTER WORLD.
 It will be fine when this disarmament business reaches the stage of only one safety razor to the family and nobody less than a police captain carrying a gun. By that time the world would even be safe for that branch of the democracy represented by William Jennings Bryan.

NOT IN THE PLAY.
 It is suspected that the Pacific quadrupact was made without the consent of Col. George Harvey. That debonair diplomat always indicated a horror of any kind of alliance and even scolded the morning he had himself contracted with Woodrow Wilson. Col. Harvey wants no entanglements and even looked with doubt and suspicion upon war brides.

THE SWISS MOVEMENT.
 Educators in Geneva have abolished all examinations in the public schools for the next three years. Several nationalities are represented in the schools and examinations are said to be a worry and hardship with no compensations to warrant their use. The teachers can judge and test scholars without examinations and for a few years at least the pupils will be spared their indignation. The experiment will be watched with some interest and folks may be blaming it on the League of Nations.

WHAT IS WANTED?
 One of our clever women film directors takes possession of the billboards with the question: "What Do Men Want?" At this moment the question may be a strife embarrassing. Under some circumstances it might call for a censorship. Otherwise it might be merely a matter of paying Santa Claus. Probably it doesn't make much difference, anyhow. If the man told what he wanted they wouldn't let him have it. What show does a man have of getting what he wants—especially if a lady screen director is there first?

THE DELINQUENT MALE.
 The League of Women in Kentucky have started an official investigation for the purpose of finding out why it is that the men do not vote. The ladies fought and died for the ballot for many generations and now that they have it they are finding that the former lords of creation, who had the ballot all the time, do not care enough about it to turn out and exercise their right. It seems to the women that this situation calls for an inquiry. If the men are having any fun in secretly staying away from the polls the ladies are going to nip that joy in the bud. They may yet pass a law requiring every man to vote, to wear a white collar and to shave twice a week. If a man is too dense to appreciate the beauties of citizenship he should be taken in hand by the law.

MATRIMONIAL JARS.
 That young woman in the East who offered herself in marriage to the man who would spend \$3000 to complete her education has already returned to work. So much publicity was given to the terms of her offer that a number of men proposed to take her up. The girl married one of them, but left him inside of a month. She gets neither the \$3000 nor the education. The man she picked turned out to be a barber with polygamous morals. The young wife indicated jealousy and behaved as if it was a husband and not an education she craved. The result was an almost instant break. The education the bride gained was not what she had planned, but it is hoped it did her some good. Possibly it will make her a little more circumspect in future matrimonial operations.

WHEN IS AN AMERICAN?
 Some of the foreign correspondents at the Washington conference are trying to find another name for the citizens of the United States besides Americans. They figure that the people of Guatemala, Canada, Brazil and half a dozen other countries are Americans. This is the American hemisphere and the title may be held or claimed by a dweller on either the north or the south continent. The writers are calling us Yankees and Usonian—but without our consent. They have even labeled us as United Statesers. This is also without our consent. The men of Maine and Montana will continue to call themselves Americans whenever they feel like it. They will probably receive their mail all right, no matter what label the foreign writers affix. The dwellers in the British provinces are Canadians first and Americans afterward. The residents of the United States of America are Americans first, last and always.

MAKING HISTORY.

Important events are taking place at Washington with bewildering rapidity. Solutions have been found for problems that the former administration found insolvable. Agreements have been reached where pessimists and demagogues have boasted that the parties at interest never would agree. With justice as the arbiter and integrity as the guiding principle age-old differences have been composed. Harmony reigns where discord once held sway, and the free peoples of the world are breathing easier because, for the first time in history, their aspirations are expressed in international agreements and written into treaties.

Progress is measured by events, not by years. Just a month ago the Disarmament Conference held its first session. During that brief period an agreement for a general reduction of naval armaments has been practically consummated. The Yaps controversy has been settled between the governments of Japan and the United States on a basis acceptable to the people of both nations. A treaty creating a quadruple alliance for the amicable consideration of all problems affecting the Pacific area has been drafted. Japan has voluntarily surrendered the temporary sovereignty conferred upon it by the Versailles Treaty over the province of Shantung and that territory is to be restored to China.

Never before in modern history has so much been accomplished in an international way in so short a time. And the effect of these international agreements has already become manifest in the rise of foreign exchange rates. Germany, while not represented officially at the conference, has reaped visible benefits. The value of the mark is rising, due to restored confidence that she is to be treated with the same degree of fairness as other nations.

China has received a recognition which justice and honor alone could accord. Her weakness has been accepted and her indefensible condition has not militated against her. An opportunity has been given to her to make good as a world power. If her people are hopelessly decadent she will reap no advantage from the self-government with which she is now intrusted. Time alone can decide whether she is capable of holding her place unaided in the industrial competition of the modern world or whether she is mentally deficient and must be cared for as the ward of other more vigorous peoples. China has received an opportunity; her fate as an independent nation now rests in her own hands.

Much has been done; but the end is not yet. The menace of future international conflict has been driven from the stage, but still lurks behind the scenes. Ruthlessness in making war, if two or more nations should again resort to force to settle their disputes, has not yet been brought under international control. It is perhaps true that no legislation can be enacted or international treaty written that cannot be violated in future wars. The doctrine that who wills the end wills the means to accomplish that end will still be preached.

If another people should arrive at the state of mind that prevailed in Germany at the outbreak of the World War the submarine, the airplane, poison gas and other devices of ruthless destruction would be brought into play, provided their use promised to be profitable. Reason exercises but scant restraint when grosser instincts are aroused. Under such conditions the ruling passion is likely to be victory at any price and by any means.

There are times when a people reach a state of mind in which they will not be deterred from evil deeds by moral suasion. As long as the use of ruthless weapons in warfare promises to be profitable the peoples of the world will have no security against them. And the people of thirty nations are looking to the international conference now in session to formulate such agreements as will make it plain to any nation which contemplates the use of such weapons in the future that it will find aligned against it an alliance of peoples who will not permit the savagery of the last war to be repeated.

The regulated use of submarines and aircraft for coast defense is a right which the conference will not be likely to challenge; but the use of poison gas is indefensible. It is possible for the conference to draft international agreements which will be a warning to all governments and all peoples that ruthless warfare cannot be made profitable. If the element of success is eliminated the menace of such savagery will disappear.

There is an abiding hope in the breasts of all free peoples that the last great war has been fought, that international controversies can henceforth be adjusted by peaceful means. But, as a measure of preparedness and precaution, the Disarmament Conference should go squarely on record in relation to savagery in warfare before it adjourns.

At the present moment the major questions which the conference assembled to consider, with this one exception, are in a fair way to amicable settlement. Peaceful solutions have been found easier than even we of this country expected a month ago. The will to peace of the world has proved superior to the machinations of the secret advocates of force. The ultimate goal has not yet been reached; but it would seem at present that, within the period of another thirty days, the conference should be able to adjourn with a record of peaceful achievement unequalled in history.

A CHRISTIAN PEACE.
 Chiefs of the Faith are of the opinion that the final disarmament of the world will come through the church. Plans are laid for a universal Christian conference in which methods for the establishment of the enduring peace of the world will be considered. Rev. Edgar P. Hill, general secretary of the Presbyterian Board of Education, is spokesman for the thought. He says that men must recognize their common brotherhood and enter into the meaning of Christianity's message to humanity. Under its acceptance there is no further call for strife or preparation for conflict. Christianity will be the greatest factor in the accomplishment of universal peace as soon as the church ceases controversy over creeds and forms. If the churches can finally agree on exactly who is to go to heaven and who to hell it would end a lot of controversial bickering and create a large consensus of peace. If they cannot find accord, how can they expect the rest of the world to reach an understanding? If the universal Christian conference can forget creed and schism it may be a wonderful thing for the world.

LOOSE TALK BY THE GOVERNOR.

Men disagree on many subjects and in many ways, and thus in the manner of a man's disagreeing it often happens that he gives a true test and measure of himself. Generally, a man is calm or agitated in keeping with the soundness or frailty of his case. If he has reason and logic on his side, he usually manages to speak thoughtfully, forcefully and convincingly and restrains what inclination he may have to indulge in denunciation; whereas, if his case is weak, he waxes windy, violent and abusive.

In controversy it frequently occurs that the man with the smallest merit makes the largest noise. Particularly is this true of political controversy where men sometimes try to strengthen their own case by seeking to point out the asserted weakness of the other side. It also is a trick of a certain type of politician when hard pressed on a real issue to manufacture a false issue.

If he is successful in his fey maneuver the public loses sight of the real issue and interests itself in the false one. If he is not successful he must be clever, indeed, to escape the consequences.

Gov. Stephens is tangled up in just such a situation and doubtless his object is to escape the consequences. He has been forced into a controversy and, instead of fighting on the issue presented to him, he has attempted to sidestep.

There is no need to seek a reason for the Governor's maneuver; for the first issue concerns economy in government, an issue in which the people take a very active and intelligent interest because it affects their welfare; and, unfortunately for the peace of mind of the Governor, it is an issue that finds him unconvincing, if unembarrassed, when discussing it.

The Governor's own issue is one that pleases him and one that he can treat with loquacity. It is one of his own making and is calculated to place him before the people, not as a waster of public funds and a provider of political spoils, as charged, but as a self-sacrificing public servant battling for the people's rights and menaced by the people's enemies.

A rather formidable group of State legislators, fully cognizant of the Governor's penchant for denunciation and for ignoring matters not particularly creditable to himself, and also aware of the political strength of a man who heads a ruthless political machine, nevertheless had sufficient courage to issue over their signatures a straightforward, thoughtful arraignment of W. D. Stephens as Governor of California.

The charges of extravagance and inefficiency permitted a plain and specific refutation from the Governor, provided the charges were not based on facts. The Governor did reply; he said the charges were untrue, but he supplied no facts of his own to prove them untrue. He did not make good.

On the contrary, he hastily disposed of the charges under the unflattering head of "bald misrepresentation" by the legislators. Then he devoted himself to a column or more of incentive, including a serious assertion that those who oppose him have raised \$1,000,000 to spend on the next election, his inference being that the great fund was raised by corrupt interests for corrupt purposes.

Very properly, the Governor was asked to prove his negative if he could; for he had attacked the good faith and integrity of the men opposing him. The legislators opposing the Governor not only branded his statement false as it applied to themselves, but offered to do all in their power to assist in exposing and prosecuting any interest in California that would seek to buy votes or otherwise corruptly sway an election.

And the Governor has remained silent and in his silence he occupies the position of a man thoughtless enough to spread malicious hearsay and rumor as fact, or a man weak enough and selfish enough to deliberately manufacture poisonous political propaganda in an effort to injure an opponent. Carelessness in high places is dangerous, and a loose tongue in a responsible position is most dangerous of all.

RESTRICTING IMMIGRATION.

Another proposition to restrict immigration has been brought before Congress by Congressman Albert Johnson, who has introduced a bill to turn back all except those immigrants who are the husbands, wives or minor children of persons who have taken out their first papers of citizenship in the United States.

There is no way really to settle the immigration question. All that legislation can do is to put in temporary checks at critical times.

The world at present is in a dangerously restless condition. Life is very hard in Europe and is growing harder. It is quite natural that men and women of ambition and energy should seek to escape these distressing circumstances by moving on to lands which are more promising.

But there are compelling and important reasons why this flood should not be encouraged to race, unrestricted, toward America.

In the first place, we have been getting immigrants faster than our American ideals can digest them. We need a breathing space.

In the next place, it will not be long until there will be other places for them to turn to. The world is spotted with enormous vacant areas yet to be populated. It will not be long until these unoccupied places will be calling for people.

As soon as England gets her house in order, it would seem that the rich valleys of the Euphrates and Mesopotamia would be ready for earnest, hard-working emigrants of the type who have helped to make America what it is.

ON THE AMERICAN SCREEN.

Senator Brandegee
I object, Mr. Chairman. I can't tell whether he's insulting my hot Southern blood or not with that gas mask on!

If any more Army officers have to appear at the hearing of Senator Watson's wild charges we suggest more defensive armament.

The Gridiron Club in Washington, D.C. indulged in its annual grilling of the Great.

and the world to divide this flood of immigration. There will be a great deal more peace between the nations when three brothers start from Italy, for instance, and one goes to a new home in South Africa and another finds his future in Russia and another one comes to Iowa.

A great new brotherhood of the peoples of this earth will come about when there is more than one melting pot.

It would be of value if the flood were held back long enough to permit the overflow to seek new outlets. There is no suggestion or thought of permanently denying the right of Europeans to come to America. Our whole national life is a pledge to give a haven and an opportunity to the restricted people of the older, used-up countries.

IT WAS AN INSPIRATION.
 Julia Ward Howe wrote "The Battle Hymn of the Republic" in the middle of the night. The daughter of Dr. and Mrs. Howe relates that one afternoon her parents while in Washington, D.C., drove out to Fort Stevens, in the environs of the city, for the purpose of visiting near-by camps. This was early in the days of the Civil War. When Mrs. Howe retired that night she had no thought of writing a poem. In the night, however, she awakened and seemed actually to see before her the words of a poem. She was weary and very sleepy and quite disinclined to rouse herself sufficiently to write down the lines. But so fearful was she that in the morning she would find she had forgotten them that she finally reached for paper and pencil which she always kept close by—and there in the dark she wrote "The Battle Hymn of the Republic."—[Detroit News.]

RIPLING RHYMES.
HAINES' WARNING.
 It's Dry Law Haines who now explains that bootleg drinks are deadly; so let's eschew the poisoned brew and cease to paint things red. This Dry Law Haines is taking pains to warn us of our danger; he hates to see the graveyard tea kill off the pilgrim stranger. The bootleg drinks are made by ginks who are not moral dandies and he is wise to all their treys, their bourbons, gins and brandies. Of poisons dire and liquid fire they are a sinful medley, and Brother Haines, he still maintains that bootleg drinks are deadly. And Comrade Haines, a man of brains, should know of what he's speaking; he tells among the jug and bung and apert sadily leaking. He samples rye and finds it lye, all kinds of booze he handles; he finds one brew has liquid glue, put in by Goths and Vandals. "Oh, jakes and janes," cries Helpful Haines, "let's all apply the swatter to those who sell this broth of hell that makes the reason totter. It strikes men blind and wrecks the mind that once was grand and gaudy; so let us flay the heartless jay who sells this boneyard toddy." Thus speaketh Haines; applause he gains from sane and sober thinkers who've marked the fate that seems to wait for bootleg whiskey drinkers.

Billie Laile says when he first came to California he did a little queening one Sunday afternoon and the girl professed considerable astonishment to a mutual friend and Billie was afterwards kidded a good deal because he routed the promenade through a cemetery.

At that, he didn't mean any harm. There were a couple of jolly epitaphs there that he considered worth anyone's time to see, and besides back in Plumville, Mo., where Billie came from, the cemetery was quite a Mecca for Sunday afternoon strollers and more than one romance was fed by visits there.

They didn't have any parks in Plumville and that probably had something to do with the popularity of the necropolis.

That was before Billie's romance days, but he went there often enough for the early violets and the late roses and the other flowers that bloomed in between the two.

He could have told you then from memory the most popular epitaphs; indeed he and his friend, Busa Marx, well, had a standing system of epitaphs they followed on two, the one beginning, "A precious one from us has gone," and the one that said, "Remember, friend, as you pass by." When the former went in the lead he bought the peanuts and when the latter Busa bought them.

Grandma Downs lived up the hill from the cemetery and there were always cookies to be had for the walk up the hill and every once in a while she told the story of the grave in Ohio that she saw once where a man was buried who won the heart of a girl and tossed it away and how the grass would never grow on his grave.

The boys watched the graves of two Plumvillers who living had been a pretty bad sort, but nothing ever came of it. Their graves remained as green, if not more so, than that of Uncle Billie, who attended the "Old School" Presbyterian Church three times every Sunday up to the week of his death.

Sometimes cemetery strolls killed romance. Doc Hightower, the Plumville dentist, stopped his rig outside by request of his three guests one Sunday afternoon and escorted the party within.

The new high-school teacher was with doc.

A small granite slab attracted the teacher's eye and she stopped to peruse: "My heart lies buried here."

The name on the stone was Hightower.

A relative of yours? asked the girl.
 "My former wife's," said the doctor.

Billie guessed she didn't like the idea of trying to win a man without a heart. Anyway, she didn't go with him any more.

 I—Unfinished Business.
 Haroun al Raschid awoke one morning to find that he was short on camels. He decided to send a special envoy to Damascus to purchase some. Behold the Damascus traders were VERY clever. He would have to use caution in his choice of envoy or he would be cheated out of his eye teeth.

"I have it," he said with a caliphic oath. "I shall proclaim that the post will go to him making the heaviest trade this day in Bagdad."

Now Ibn al Muley was sitting in his doorway in the street of the Three Moons when the crier passed that way shouting the royal manifesto.

Ibn was one keen swapper. He admitted but one equal. When he heard the manifesto he set forth in search of the equal aforesaid.

Plan Building to Cover Block at the Harbor.

TWO WEEKS, OR LOVE ASTRAY.

Being Wife's Story of How Husband Stopped Out Soon After Wedding.

Fifteen days after Harry Walker had promised to cherish Helen Caldera Walker until death, did them part, he stayed out until 2 a.m. and then boasted that he had "been out with the girls," according to a divorce complaint filed Monday by Mrs. Walker.

From that time on until the couple's separation, scarcely a day went by without Mr. Walker gloating over his amorous conquests, the complaint recites.

The complaint, which was prepared by Attorney Arthur C. Webb, states that the couple were married on June 24 and separated last August 2. During that time Mr. Walker is said to have called his wife a great many names.

The building will face on Seventh street and will be bounded on the east by Beacon street and on the west by Palms Verde street, one block from the San Pedro City Hall.

INDICTMENT FAULTY.

Ernest Weeks, a discharged sailor whose trial on the charge of raising \$2 Federal reserve notes to \$20 was set for Thursday in U. S. District Judge Bledsoe's court, will not be up for hearing until January.

It developed yesterday, after Weeks has been in the County Jail for four months, that the indictment is faulty, and it will be necessary to refer the case back to the Federal grand jury.

An effort was made to have the bond of \$2500 reduced, but the court refused. Weeks has a wife and 2-month-old baby at the harbor.

COUNCIL INVITED TO NEWSBOYS' DINNER.

Fred H. Solomon, dance hall proprietor, yesterday invited the members of the City Council to attend his sixth annual newsboys' Christmas dinner to be held at his hall on Christmas Day. The Councilmen were asked to be present and to extend words of "holiday cheer and civic patriotism to the lads who represent the very bone and sinew of our city and who, in a few years, will be moulding the destinies of this great metropolis."

RANKS OF NEEDY FOUND AUGMENTED.

Appeals from unexpected sources received for SHRINERS' CHARITY.

Never in the history of the Shriners' long-established Christmas charity have there been so many appeals from men and women who have never previously been placed in the position where they found it necessary to ask for assistance, according to Mrs. C. A. Eichhorn, for several years in charge of the order's relief headquarters. Mrs. Eichhorn said yesterday a dearth of work is responsible for much suffering and need this year in many homes.

Many letters evidencing refinement and education have been received at the headquarters. They all stress the one great need--clothes. There are many calls for shoes and stockings for little folk, suits and dresses for children, and both men and women. Hedding is also needed and food is being asked for in a great many instances, while the kiddies the Shriners would like toys of all kinds. Furniture would also prove a boon in many homes that it appears are all too scantily furnished.

The Shriners' truck will call for donations if word is sent to the headquarters, telephone 13131. Bundles or packages may be left at 729 South Spring street. The headquarters will be open next Sunday as well as on other days during the week.

LEFT UNCOVERED CAMP FIRE.

Justice Hanby yesterday freed Dan Lassagna of 134 West Seventy-sixth street \$25 for leaving his camp fire uncovered in Santa Anita Canyon November 6, last. The defendant pleaded guilty.

P.S. (PARDONABLE SURPRISE!)

PRICE DECLINE IS PROPHESIED.

Decline in Anticipated by Advertising Men.

Advertisers Not Due for Turn, He Says.

Golden Rule to Trade, in Expert's Advice.

A gradual decline in the price of merchandise for the holidays is expected, according to the advertising men. The man who says he will not buy until prices drop is a long time coming. Charles Henry Mackintosh, president of the American Advertising Club, said yesterday at the annual meeting of the club, held at the Hotel Astor, that he expects a decline in prices. "In the past few years," he said, "the price of merchandise has been rising steadily, and it is only now that it is beginning to fall. This is a good thing for the advertiser, as it means that he can get more for his money. But it is also a bad thing for the consumer, as it means that he will have to wait longer for his goods. The golden rule to trade, in my opinion, is to buy when you can get the best value for your money. This is the only way to get the most out of your money."

FIGHT GUATEMALA SALE.

A suit seeking an accounting of money purported to have been received by Leonard G. Kellogg from the sale of stock and land in Guatemala and an order restraining him from disposing of the proceeds, were filed yesterday against Mr. Kellogg and the Citizens Trust and Savings Bank by I. N. Wilson. The land involved comprises 8599 acres asserted to be held in trust for the Guatemala Trust Syndicate. Title to the land was held by Mr. Kellogg prior to last March.

an optimist or an idiot. However, it is good to remember that as prices fall the purchasing power of the dollar will increase. After all, prices have little to do with prosperity. The important question is: What can a man buy for the money he gets for his labor?"

Mr. Mackintosh said that during recent years the market for manufacturers' products has been so good that the art of salesmanship has become practically obsolete. The average clerk, he said, is only about 45 per cent efficient. The important question is: What can a man buy for the money he gets for his labor?"

Forgiven, Wife Again Left Him, Husband Says.

Charging that his wife twice left him for other men, Jesse G. Pennywitt yesterday began an action for divorce. According to the complaint Mrs. Pennywitt left her husband on one occasion and the next he heard from her was when he received a letter from San Francisco. This letter, it is asserted, was sent to that city and mailed from there, Mr. Pennywitt. In his complaint, asserting that Mrs. Pennywitt had never left him, he asserted that she had been living with another man.

They were reconciled and, according to the complaint, further Mrs. Pennywitt promised never to leave her husband again. Half an hour after she had put her arms around him and so vowed, as Mr. Pennywitt asserts, she left in his automobile with another man and her two children.

Child Killed by Automobile; Driver is Held.

Stepping in front of an automobile driven by E. M. Couden of Montebello, at Forty-fifth street and Central avenue early last night, Alexander Royal, aged 12 years, of 1620 East Fifty-second street, was knocked under the wheels of the motor car, from which he died a few minutes later. Couden was taken to the University Police Station, where he was held on suspicion of manslaughter. The body of the boy was removed to the E. B. McCormick undertaking establishment.

Former Ticket Salesmen Charged With Embezzlement.

A. H. Schaefer and A. Fehner, formerly salesmen for the T. R. Foreign Service Company, 781 South Spring street, handling steamship tickets, were arrested yesterday by Constable Hayes, on charges of embezzlement of various sums from the company, said to have been received for tickets.

TAXES INCREASE UNEMPLOYMENT.

Large Levy Prevents Any Business Expansion.

Women's City Club is Told Many Are Jobless.

County Road Work Urged to Remedy Situation.

BY MYRA NYE.
Heavy taxation in California, large investments in income tax exempt securities and other economic reasons were given at the last meeting of the Women's City Club as contributing causes to the unemployment situation. It was estimated that 30,000 persons in the city were jobless.

Henry M. Robinson, who was chairman of the committee on statistics of the unemployment conference called by President Harding, was principal speaker on the unemployment problem. He replied to a question asked by Mrs. Charles Gray, former president of the Federation of Parent-Teacher Association, Mr. Robinson said he believed the heavy taxes formed one reason for present unemployment, adding: "Businessmen are prevented from expanding their business because of the continued and increasing burden of taxes."

Large investments in income tax exempt securities such as Liberty Bonds was another reason for unemployment brought out in the discussion by members from the floor following Mr. Robinson's talk.

E. P. Ryland, member of Mayor Cramer's committee to consider this problem and remedy it if possible, told of the local aspects of the question.

"A conservative estimate today of those in this city out of work is 30,000," said Mr. Ryland. "These are classified as citizens, the semi-invalids, the migrating population which is never so numerous, and those who won't work anyway. With the exception of plumbers and a few others, there are more than two men to each job."

As a local remedy the speaker suggested that the city and county create work on roads, improvements for the unemployed and that employment agencies be concentrated in the one Federal agency in the city.

Seven thousand men and women in the motion picture world will be out of employment the first of the year, Mr. Ryland said, and those temporarily employed for the busy holiday season will augment the present number of unemployed.

He suggested that work on the parks was needed and also on the new highway. Judge Wood, while working for the State on Malibu Road and near San Juan Capistrano would be worth while.

Shakespeare Club.
"Julius Caesar" will be the subject for the Galpin Shakespeare Club today at 2 p.m. at the Friday Morning clubhouse.

The Christmas meeting will be held Saturday at noon, beginning with a luncheon and in the afternoon a program will be given.

Los Angeles Travel Club.
"New York City and the United States of America" will be the subject of a talk by Mrs. Harriet Barry, president of the National Women's Travel Club and also president of the United States of America, at the meeting of the Travel Club tomorrow afternoon.

There will be an executive board meeting at 10 a.m. tomorrow, at 11 o'clock, parliamentary law, with Mrs. Ellen French Aldrich presiding, music at 1, with Ralph Laughlin. The program begins at 8 o'clock.

Daughters of Veterans.
Helen Jean Christie Tent, No. 17, Daughters of Veterans, will hold its regular meeting tomorrow at 8 p.m. in Patriotic Hall, 1818 South Figueroa street.

Evansville Society.
The Evansville (Ind.) Society will hold its regular monthly meeting tomorrow evening at 8 p.m. at the Evansville Hotel, 303 Mercantile Place. The annual election of officers and a program of music and dancing will feature the evening. All are cordially invited.

Bankers' Night.
Los Angeles bankers, under the leadership of Mr. J. W. Lewis of the Union Bank and Trust Company, are to have charge of the program for the December meeting of the Los Angeles Credit Men's Association, which will be held at the Broadway Department Store tomorrow at 6 p.m.

Reservations may be made by calling Broadway 7844.

The Los Angeles Credit Men's Association is the seventh largest in the United States and a membership campaign is in progress under direction of Mr. H. I. Brenner, which bids fair to place Los Angeles at the head of the list.

Flashbacks on the Club Screen.
Mail your Christmas packages early! This exclamatory command circulates in club circles these preholiday days. It comes from no less a personage than Mrs. Thomas G. Winter, president of the General Federation of Women's Clubs. Mrs. Winter received her inspiration for the order from Will H. Hays, Postmaster-General, who wrote to Mrs. Winter and Mrs. Charles H. Toll read the letter at the last meeting of the Small Club, adding: "Who says any one of you will go home and tonight begin the unwinding of red tape and the tying of same."

Here is an encouraging announcement for young housewives who are casting about for economic independence. A girl who has graduated from high school and has been married four years, managing a home successfully for that time and keeping house may receive credits that will qualify her to begin scientific study of home economics in that department of the State university, southern branch. This is a provision of the Smith-Hughes act. Graduates from that department

are qualified to fill positions where good salaries are paid.

"Clubwomen don't make your tea room a bazaar." This is the strenuous and emphatic advice of Mrs. Toll, president of Eboli, whose clubhouse has presented that appearance too frequently of late. During Book Week, when children's books were on display merely as suggestions for Christmas gifts, a passerby was heard to say as she went through the patio to the auditorium: "I declare, if they are not selling books. What next?" Hereafter in this clubhouse the list of names of those who have permission to sell anything in the tea room or reception room will be posted on the bulletin board. Every member is urged to make sure she is buying of an authorized seller before investing her dime and dollar.

Exhibit No. 1 in the case of Judge John Perry Wood vs. the Eboli Club was a very attractive exhibit as she slipped tea with her distinguished husband after the program hour. The exhibit was Mrs. Wood herself who as a mother of several children is a splendid example of antidivorce propaganda. Judge Wood certainly thought he had a case against the club for insisting that he talk about divorce to them. But there was no case after he was through. He had every one who listened to him on his side because of his fine constructive talk regarding divorce.

"I would not allow New York to pretend to be more holy than California by having only one cause for divorce when this State has two," said Judge Wood. "It makes it easy for rich New Yorkers to come here and get what they want while the poor of this State continue in slavery of matrimony. All States should agree upon the same laws to govern divorce and Congress should pass them."

District Board.
At a meeting of the District Board, Los Angeles Federation of Women's Clubs, held at the Broadway Department Store yesterday, a resolution calling on Dist. Atty. Woolwine to investigate the cost of living in Los Angeles cafes and caterers, was passed. The meeting was presided over by Mrs. J. C. Urquhart. The next meeting will be held at Compton, January 18.

RANCH DINNER FOR CHRISTMAS

Master Chef Learns from Farmer's Wife.

Range Cook's Recipes Given Praise by Expert.

Guests at Wyoming Home to Get Surprise.

BY A. L. WYMAN, M.C.A.
DENVER, Dec. 13.—One of the best cooks that I have talked with on this trip is the wife of a rancher and cattle raiser, who has a big ranch in the southern part of Wyoming. She was on the Denver Limited returning home from her Christmas shopping in Chicago. She told me that she had to be home at least three weeks before Christmas as they had about ten business men from Chicago to spend the holidays with them and that they were big eaters. Some of her experiences as a cook in the early days, when she and her husband had to make their own food, would make interesting reading, but I think that the menu she is going to serve to her guests on Christmas Day will be more interesting at this time to the readers of this column, and I know that it will be a pleasant surprise to her guests, as she can have everything that city folks have and a whole lot more.

The dinner she has had planned for weeks and we spent the best part of a day checking it over and she gave me some of her recipes:

CHRISTMAS DINNER ON A WYOMING RANCH.

Cream of Oyster Soup.
Oyster, Walrus, Pickles, Chutney, Olive, Pickled, Spices, Butter, Bone, Pumpkin Pie, and Lemon Christmas Pudding, Fruit Cake, and Cheese.

And if you are a visitor at her ranch you are expected to eat some of all the dishes set on the table. For the cream of oyster soup heat four cans of oyster soup in a double boiler and stir in three tablespoons of flour that has been creamed with four tablespoons of butter. Add three cups of hot milk and season with salt and toasted soda crackers.

ROASTED GOOSE.
For the goose choose a young one, the breast should be plump, the skin white and the feet pliable and yellow. Draw and wipe out

the inside with a damp cloth, cut open the gizzard, wash well and remove the outer skin, place the liver in salt water, cut off the top of the heart, open on the side and press out all the blood.

For the dressing, peel, core and quarter six apples and stew with a very little water until half-cooked. Add to the apples half a cup of chopped seeded raisins, one cup of bread crumbs, one cup of corn, cooked rice, two-thirds of a teaspoon of poultry seasoning and a seasoning of salt and pepper. Mix well and stuff the goose with it. Sew up the goose and place in a roasting pan that has a cover. Place in the pan with in goose sliced onion, a chopped carrot and a bay leaf. Cover the pan tight and when the goose is brown on one side turn and brown on the other. Turn and baste every ten or fifteen minutes. Keep pan closely covered. Prick the skin French to let out the fat. Roast until the meat on the breast and legs feels tender.

Skim off the fat in the pan and stir in one cup of hot water and two tablespoons of flour, cook smooth and strain into a sauce dish. Serve with the goose and apples with the goose.

ORANGE SALAD.
For the orange salad lay four sections of an orange on a long leaf of Romain lettuce and between each orange section lay two strips of sweet green and red peppers. Pour over all a lemon French dressing. Bake shell side up until it is tender. Scrape the pulp from the shell and press through a strainer. Add to two cups of the strained pumpkin, half a cup of sugar, one teaspoon of salt, half a teaspoon of cinnamon, quarter of a teaspoon of ground mace, one teaspoon of vanilla, three lightly beaten eggs, one cup of milk, one cup of cream and the grated rind and juice of two lemons. Mix well and pour into deep pastry lined pie tins and bake until the filling is firm. Serve with good cream cheese.

CHRISTMAS PUDDING.
For the Christmas pudding, mix well, one and a half pounds of bread crumbs with one pound of seeded raisins, one pound of seedless raisins, one pound of finely chopped kidney suet, one cup of chopped blanched almonds, one cup of chopped figs, one cup of sugar, one teaspoon of ground allspice, two teaspoons ground cinnamon, one teaspoon ground cloves, grated rind of two lemons, eight well beaten eggs, one cup of milk and one cup of cider. After mixing let stand overnight. Fill buttered moulds two-thirds full, cover tight and steam for six hours.

The lemon sauce is made by pouring two cups of hot water into one cup of sugar, mixed with

After-Dinner Tricks

No. 25.—Coin Disappears Into Elbow.

The right hand rubs a coin into the left elbow, where it disappears. This trick is accomplished after several failures—and therein lies the secret. In rubbing the coin into the elbow, it is dropped accidentally (?). In picking it up, it is taken in the left hand, but the right continues to rub the left elbow as though it were the coin. Meanwhile the left hand secretly drops the coin inside the collar. Then the right is shown empty, and anyone may examine the elbow.

(Copyright, 1921, by Public Ledger Co.)

THE FRUIT CAKE.
The fruit cake made before she went to Chicago, and it was made after a very old recipe. Beat to a cream, one and a half pounds of butter, and beat into it the well-beaten yolks of eight eggs, half a teaspoon of salt, one pound of powdered sugar, six cups of flour, one pound of seeded raisins, one pound of seedless raisins, half a pound of finely chopped citron, half a pound of candied orange peel, one teaspoon each of ground cinnamon, allspice, and nutmeg, half a pound of chopped blanched almonds, and the grated rind of four oranges. Beat well and add the stiffly beaten whites of the eight eggs. Line tin cake forms with double folds of buttered paper and bake in a moderate oven. If baked in one cake it will take three hours. If baked in two cakes it will take one and a half hours. The cake should be kept covered with four or five layers of buttered paper to prevent burning. Ten or twelve thicknesses of paper under the pan will also help.

Next week we expect to be in California, and we will write a simple California menu with its recipes.

**FALL DISCUSSES
HIS TRIP HERE.**

Secretary Ends His Six-Day
Reclamation Tour.

Seeks to Clear Colorado's
"Misunderstanding."

Director Davis to Attend Los
Angeles Meeting.

(BY A. P. DAY WIRE.)
SAN DIEGO, Dec. 13.—The first
move in President Harding's re-
cently announced policy to reclaim
all the arid lands of the nation
was marked in the six-day visit to
California of Secretary of the In-
terior Fall, which terminated to-
day. Not only did Secretary Fall
announce that construction of the
Boulder Canyon dam in the Lower
Colorado River for protection of
the Imperial Valley should be un-
der government control, but he
sought to clear up what he termed
misunderstanding on the part of
the people of Colorado, which
caused open opposition to Colo-
rado delegates here and at River-
side against any development on
the Colorado under Federal con-
trol.

SERVICE REPORT SOON.
Secretary Fall said he sought to
remove any share the reclamation
service may have in causing this
misunderstanding by his recent
admission of the service as being
dilatory in determining whether
obligations to Mexico had been ful-
filled by the Elephant Butte dam,
and whether there remained in the
Rio Grande above the dam suffi-
cient excess water to permit de-
velopment and use of it by the
upper States. He said a report by
the service on this would be forth-
coming in short order.

Announcing that his course was
unusual in a Federal hearing, Sec-
retary Fall spoke at length last
night on the history and conditions
surrounding the government de-
velopment of the Rio Grande and
withdrawal of public lands in Colo-
rado. The same conditions of In-
dian obligations with Mexi-
co, which led to a Mexican claim
for \$35,000,000 against the United
States and was settled only by
agreement of Congress to construct
the Elephant Butte dam, were
found in the Colorado.

Secretary Fall dealt extensively
with the situation, in order, he
said, to show that there was no
reason for misunderstanding be-
tween the States or for the
clear opposition of the Colorado
delegates to the Reclamation Ser-
vice, because Congress, and
the Reclamation Service, had
ordered the building of the dam
in the Rio Grande.

The Federal hearing on the
Boulder Dam Project preliminary
report of Director Davis of the
reclamation service was com-
pleted last night.

LEAVES FOR EL PASO.
Secretary Fall left today for
El Paso, O. C. Merrill, executive
secretary of the Federal Power
Commission, went to Los An-
geles, planning to leave there
tonight for San Francisco. Director Davis
of the Reclamation Service said
he would leave here tonight for
Los Angeles to attend conferences
there tomorrow and expected to
leave Los Angeles tomorrow night
for Phoenix.

**ILLINOIS SOCIETY
TO DISCUSS RIVALS.**

**WILL CONSIDER ASSERTED
MISREPRESENTATIONS
AT MEETING.**

Fur is expected to fly at the an-
nual meeting of the Illinois State
Society of Southern California,
which will be called to order at 8
p.m. today at the Friday Morning
clubhouse.

This is the original association
of people from Illinois and the
society which recently took excep-
tion to the activities of the rival
society which is termed the "Loyal
Illinoisans."

The matter of this misrep-
resentation on the part of certain
officers and members of the Loyal
Illinoisans will be taken up at our
annual meeting in order that there
can be no misunderstanding of
our attitude regarding the situa-
tion," said James A. Tomlinson,
president of the Illinois State So-
ciety yesterday. "We expect at
least 600 people at the meeting."

An election of officers will be
followed by a program of enter-
tainment, including a piano solo by
W. H. Bertho; reading, "The Shoot-
ing of Dan McGrew," Dr. Charles
Jacques Ford; vocal duet by E. L.
Richards and Mrs. Stratton; song
by Mr. and Mrs. Z. L. Parkas and
music by three women playing the
native instruments of Hawaii.

FACES TWO CHARGES.

Man Nabbed in Check Case Also
Wanted on Death Complaint.

Recognized by Detective J. A.
McCaleb as a man wanted on a
felony charge, J. E. Speyer, 35
years of age, found two charges
instead of one lodged against him
when he was arrested yesterday on
a charge of passing worthless
checks.

Speyer was first taken into cus-
tody in a downtown store while at-
tempting to pass an asserted
fictitious check. At Central Police
Station Detective McCaleb saw the
man and at once recognized him as
a former bus driver wanted on a
manslaughter charge.

CONFESS SIX BURGLARIES.

Two Young Men Caught With Loot, Police Say.

Thousands of Dollars' Worth of Goods Recovered.

Arrivals from Detroit Will Show Victims' Homes.

Two young men arrested last night have confessed, the police report, to the burglary of six residences in the last three weeks, and loot worth about \$7000 has been recovered. The prisoners say they are Charles Ravell, 29 years old, and John Fredericks, 24 years, and that they came here November 20 from Detroit.

FIND MOSQUITO-CHASING COSTS HIGH.

The Anopheles that worries the harbor commission now. The commission wants to know what the daily mileage of an ordinary mosquito, alias Anopheles, Culicidae and other unpronounceable cognomen, is. The mosquito is generally known for its wicked proboscis, but another interesting sidelight was cast upon the despicable insect yesterday when the official mosquito chaser submitted

a report revealing the untold miles he traveled in pursuit of the blood-thirsty mosquito.

The mileage report of Edward Field, the mosquito exterminator at Los Angeles Harbor, showed that the modern method of stalking a mosquito is by using an automobile. Automobiles burn gasoline and miles of road burn up much gasoline, which the city is asked to pay for.

The mosquito chaser receives a

salary of \$4.50 a day. But during winter months the Anopheles subsist on a vegetarian diet. Summer heat alone whets their thirst for blood. The mosquito may still be chased, but why chase harmless insects in the winter? Such was another problem the commission attempted to solve. They want to give the mosquito chaser a winter vacation. All of which was passed on to the Health Department, under which Mr. Fields works, to solve.

INDORSES BOND ISSUE.

BLOW SAFE AFTER BINDING WATCHMAN.

Yegmen early yesterday morning blew the door from a small safe in the Manhattan Cafe, 221 West Eighth street, and escaped with about \$200 in cash after binding and gagging Joe Weber, a night watchman. Weber, who says he eventually worked his hands free and removed the gag, notified the police by telephone of the robbery after the safe crackers had fled.

Nab Film Star and Companion After Accident

A real thriller was provided Art Acord, well-known screen star and hero of a novel by a prominent author, and Fred Whiskerham when they were arraigned yesterday on a charge of failure to stop and render aid after an accident.

It is charged they were riding in a car that collided with one driven by Arthur McLaren and, failing to stop, continued on their way. After arraignment before Justice Hanby, each furnished bail of \$1000. The hearing was set for the 21st inst.

BLOW SAFE AFTER BINDING WATCHMAN.

Yegmen early yesterday morning blew the door from a small safe in the Manhattan Cafe, 221 West Eighth street, and escaped with about \$200 in cash after binding and gagging Joe Weber, a night watchman. Weber, who says he eventually worked his hands free and removed the gag, notified the police by telephone of the robbery after the safe crackers had fled.

According to the story told officers by Weber he was surprised by a masked man armed with a pistol when he entered the cafe to scrub the floor. He put up his hands as commanded, and after being searched, was bound and gagged with a four sack.

Weber further says he heard two men talking and then an explosion occurred that shook the building. Soon thereafter, he says, one of the bandits slipped a \$5 bill into his hand. It was a considerable time afterward when he worked the ropes from his hands and notified the police. No description of the bandits could be given by Weber, but police detectives who investigated the case declared the men to be expert safecrackers.

BEGINS RELIEF WORK.

Social Service Commission Asks Co-operation.

The city Social Service Commission yesterday issued the following statement calling attention to the commission's annual Christmas relief work:

"The Christmas season is with us, and to the end that the greatest good may be accomplished, and that duplication of effort may be eliminated to the minimum, the Social Service Commission has again established its clearing-house bureau, and earnestly requests the co-operation of all philanthropic and civic organizations in the distribution of Christmas gifts.

"If each person or organization desiring to assist in the Christmas work will notify the office of the Social Service Commission of the names and addresses of people needing help or assistance, and all of those giving aid to the needy will work through this bureau, it will greatly facilitate the work. Last year more than 5000 families were assisted through the medium of this bureau."

FOR NURSES' CLUB.

Bazaar Proceeds Will Be Used to Erect Building.

Among other attractive articles, a shawl made by disabled veterans at Arrowhead Hospital as a tribute to the nurses will be offered for sale at the bazaar to be held in the Parish house of St. Paul's Pro-Cathedral today. The proceeds of the sale will be used to erect a clubhouse for trained nurses. The bazaar will open at 10 a.m. and will remain open until 10 p.m. It will be possible through the proposed clubhouse, it is stated, to place on instant call all the nurses in Los Angeles. All the hospitals the city nursing chapter of the American Red Cross, the nursing divisions of the Los Angeles Chapter of the American Red Cross, the city nursing divisions of the city and county health departments, and the St. Vincent's have donated handsome gifts which will be offered for sale today.

WARNS TAXPAYER.

Collector Reminds Angelenos that Income Time Ends Tomorrow.

Collector Carter sent out warning to the income taxpayers of the local internal revenue district yesterday.

He reminded them that tomorrow will be the last day when payments on account of the last quarter of income tax can be made without the imposition of a penalty.

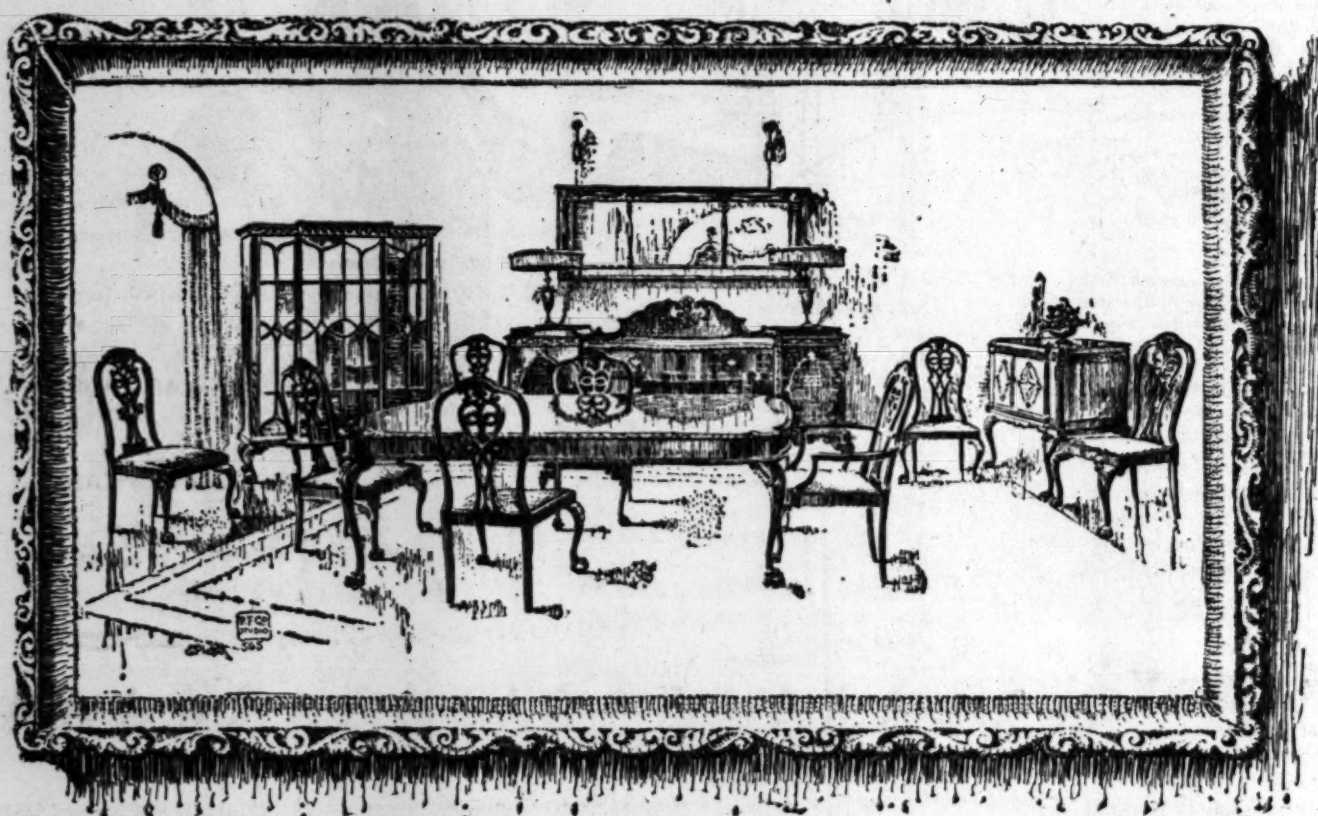

Splendid response is being made to the call of the government, but there is about \$10,000,000 to be paid over the counter before the close of business tomorrow night, and that is quite a lot of money even in these days, the collector points out.

SONGS TO BE HEARD THOUSAND MILES.

Jane and Catherine Lee, headliners at the Orpheum, will sing at 4 o'clock this afternoon in the radio room on the roof of Hamburger's department store, and their voices will be broadcasted to 6000 recorded radio stations within a 1000-mile radius of Los Angeles. Gay's Orchestra of the Hotel Maryland will accompany them and also play selections. By means of an amplifier attachment this music can be heard in volume and tone almost the equivalent of the original rendition in the radio room.

When a Federal Bureau reminds you that children should not drink coffee or tea—
Why not think of your own health?

The Federal Bureau of Education advises in its rules to promote health among the Nation's school children, to warn that children should not drink coffee or tea.

The reason is well known. Coffee and tea contain drugs which stimulate and often over-excite the nerves, and so upset health.

The harm is by no means confined to children, as any doctor can tell you.

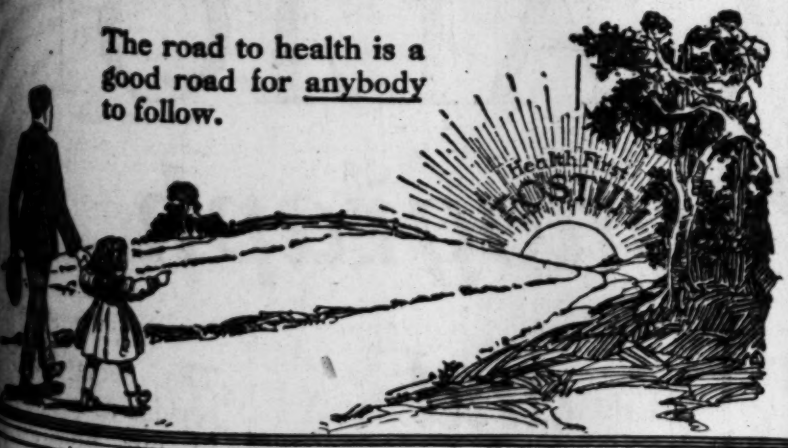

If health is valuable to childhood, it is valuable always. If harm to health should be avoided until bodies

grow up, is it worth taking a chance with health when bodies have grown up?

You can have that delicious and satisfying cereal beverage, Postum, with any meal, and be safe—you, and the children, too. There's charm without harm in Postum.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Sold by all grocers.

The road to health is a good road for anybody to follow.

To Correct Constipation Without Cathartics—

Mastin's Yeast Vitamin Tablets Now Used By Millions

As a Natural, Safe and Easy Way To Aid Digestion, Strengthen Internal Organs, Increase Energy and Clear The Skin

Instead of doing themselves with treacherous cathartics and violent drugs, millions of chronic sufferers from indigestion and constipation have now turned to the simple, easy and economical corrective provided by Mastin's Yeast VITAMON Tablets. By supplying in concentrated form not only yeast, but all three of those precious health-giving new food elements—the vitamins—Mastin's VITAMON Tablets help to feed and nourish the shrunken tissues, strengthen the entire digestive and intestinal tract and set in a natural way as a general conditioner of the whole system. Pimples, boils and many distressing skin eruptions seem to clear up as if by magic and the complexion becomes radiantly fresh and clear under the purifying influence of Mastin's VITAMON Tablets. Weak, thin and run-down folks who have been ailing for years—the victims of undernourishment brought on by a lack of sufficient

vitamins—are often amazed at their astonishing improvement in weight, energy, appearance and mental alertness after only a short course of Mastin's VITAMON Tablets with every meal. Mastin's VITAMON Tablets do not upset the stomach or cause that bloated feeling—they are in no way distasteful—they keep indefinitely and are easy and economical to take. Make this simple test: First weigh and measure yourself. Next take Mastin's VITAMON Tablets regularly until you are satisfied with your gain in weight, "pep," energy and improved appearance. It is not only a question of how much better you look and feel, or what your friends say and think—the scales and tape-measure will tell their own story.

BURCH STORIES DIFFER WIDELY.

Romance of Obenchains is Retold by Records.

Suspect's Preparations to Go East Are Related.

(Continued from First Page.)

Highland Park Presbyterian Church had just completed his brief story of the marriage of the Obenchains in Los Angeles on New Year's day, 1919. In an examination Chief Defense Counsel Paul W. Schenck merely asked:

"And at the time you married Madalynne Conner to Mr. Obenchain she was a member of your church, wasn't she?"

"Yes," replied the minister.

"And she now is, isn't she?"

"Yes."

Chief Deputy County Recorder Hazen produced in court the recorded documents attesting to the marriage. When he was called a buzz of expectancy swept the room because it was believed his report also testified of the new marriage license obtained a few weeks ago by Mr. Obenchain for the purpose of a second marriage to his divorced wife.

STORY OF GLEN.

Mr. Deering's version of what happened in Beverly Glen soon after the murder was eagerly seized upon by the defense. The witness's story was substantially as follows:

About five or six minutes after 9 o'clock on the night of August 3 he was approaching the Kennedy cabin in his automobile when a woman, whom he later learned was Mrs. Obenchain, stepped into the road and stopped him. What Mrs. Obenchain said to him was not brought out yesterday, but the defense let it be known that Mr. Deering will be a witness in Burch's behalf and the whole conversation then may be related.

Mr. Deering drove his automobile probably fifteen feet past the Kennedy car that was parked at the foot of the cabin steps. Mrs. Obenchain walked back to the steps, standing near the car, while he turned his automobile around and came back.

Mrs. Obenchain "kinda had hiccoughs, like a child sobbing after a good hard cry," the witness said.

Mr. Deering parked his car in such a position that the lights from his automobile were thrown on the cabin steps where lay the body of Mr. Kennedy. With Mrs. Obenchain peering over his shoulder, he examined the body, felt the pulse and pronounced Mr. Kennedy dead.

"She screamed when I told her the man was dead," he said.

A revolver was lying near Mr. Kennedy's right hand, a wound was in the side of his head, and Mr. Deering stated he formed the opinion it was a suicide case.

"It came to my mind that I should take Mrs. Obenchain to the Beverly Hills Police Station," he continued, "and just as we were getting ready to leave we heard footfalls on the boulevard from up the canyon."

Then he related the arrival of Mr. and Mrs. Beseney. Mr. Deering asked them to remain with the body while he and Mrs. Obenchain reported to the police.

All of this had required about ten minutes, he declared. It was about 9:30 or 9:35 p.m. when they arrived at the Beverly Hills Police Station. The deputy sheriff from Los Angeles appeared there about 10:15 or 10:20 p.m., and then the witness left Mrs. Obenchain in their hands. This was his story on direct examination by Mr. Keyes.

IMPORTANT POINTS.

Under the cross-examination of Mr. Schenck the following additional points were brought out:

(1) While Mrs. Obenchain was waiting for Mr. Deering to turn around and come back to the Kennedy cabin after she had stopped him, she at no time went up the road north of the Kennedy car as Mr. and Mrs. Beseney testified she had done.

(2) When Mrs. Obenchain was told Mr. Kennedy was dead she cried, "Oh, why did they do it? Oh, why did they do it?"

(3) It was an "unusually dark night," so dark the witness could scarcely see outlines of persons ten feet away.

(4) Neither Mr. or Mrs. Beseney threw a flashlight on Mrs. Obenchain's face, so far as the witness saw and Mrs. Obenchain was never out of his sight while he was at the cabin.

(5) Mrs. Obenchain was wringing her hands and crying because, "she felt bad, I guess."

(6) When Mr. Deering and Mrs. Obenchain rode down the canyon road there was no car on the gravel road where the prosecution contends Burch parked his automobile, with the lights burning dimly. At least Mr. Deering saw none and he said he was looking on both sides of the road.

Mr. Deering also denied in cross-examination that he told Mrs. Obenchain's face, so far as the witness saw and Mrs. Obenchain was never out of his sight while he was at the cabin. "I guess," he said, "she was crying because she felt bad."

Because of this, Madalynne's version of how "two rough-dressed men" brushed by her and ran up behind the cabin after the shooting was not brought before the jury.

Otis M. Wiles and Arthur Pangburn, Times reporters, told of the finding of the couple of little that the State asserts were discharged at Mr. Kennedy. They also related in detail what they had seen at the gravel road near the Kennedy cabin where peculiar tire marks had been left by an automobile.

These marks, they testified, were similar to impressions that would have been left by the tires on the Dodge roadster which Burch had from 7:35 to 11:03 p.m. on the night of the murder. They saw tracks leading up the path behind

THE X-RAY CIRCLES:
No. 1—The invisible, double steel support to the arch.
No. 2—The long, strong, fitted invisible counters along each side of the shoe, forming a "bandaged brace" to the foot.
No. 3—Narrow heel-hugging feature which makes a "combination last" preventing slipping—giving solid comfort.

When Your Job Requires Standing, Wear Ease-Alls

THERE is always danger to the waitress, and to every woman on her feet, of bringing painful experiences from broken arches or strained foot muscles in the long hours of hurried steps and much standing.

Such feet need strong support. Yet the waitress as well as every woman wants to be dressed smartly in the mode. Both of these she may have, with health in abundance, from wearing the Ease-All shoe, built for her comfort.

Ease-All

The Shoe of Invisible Comfort and Visible Style

The "built-in" steel arches in the shank maintain the weight. The "bandaged brace" formed by a long, strong counter, keeps the foot bones and muscles functioning as nature intended.

Ease-Alls make one free to work happily, without that tired feeling at night because nature has been helped to function.

And don't forget—Ease-Alls are made in the mode.

Boy Run Down by Automobile; Neck Fractured

Struck down by a small truck driven by A. L. Evans of 285 North Avenue 20, Gilbert Hamilton, 15 years of age, of 2915 West Avenue 28, was perhaps fatally injured late yesterday afternoon on the San Fernando Road. At the Receiving Hospital the boy was treated for a fracture of the neck.

Witnesses told Patrolman C. D. Pitman, who investigated the accident, that it was unavoidable and no arrests were made. From what could be learned by Patrolman Pitman, it seems that young Hamilton and another boy darted across San Fernando Road near the city limit and ran directly in front of the automobile operated by Mr. Evans. The boy was struck by the bumper of the machine and thrown against the curb. Mr. Evans stopped his automobile within ten feet of the spot where young Hamilton was struck and at once rushed the boy to the hospital.

Incurably Ill, Veteran Tries Leap to Death

Despondent because of ill health, a man believed by the police to be John Kent, 80 years old, yesterday attempted to end his life by leaping from the second-story window of a rooming-house at 341 East Second street. At the Receiving Hospital, where he was treated for a fracture of the skull, police surgeons stated that he would die.

COOK ROBBED MESS?

Navy Man is Betrayed by His Fancifully-Tattooed Arms.

The officers' mess of the U.S.S. Eagle, No. 13, stationed at Los Angeles Harbor, is minus \$500, it was disclosed yesterday with the arrest at Castle Rock, Colo., of Quince U. Shubarth, formerly cook in charge. The arrest of the Navy cook was caused by Constable Thomas, through the fact that he has a butterfly and a Japanese woman tattooed on his arms. Shubarth was found at the home of his mother, Mrs. Lillian May Eggenberger, and will be brought here for trial. He is accused of embezzlement.

The Discovery and Guarding of a Valuable Secret

(Continued from Page 10.) Henry R. Hoefler's training as a master candy-maker under his father was thorough. Equipped with a knowledge of the best traditions of the craft he had set out for himself and struck West.

His path wound tortuously through the years until, at last, he settled in Astoria, Oregon. Here, starting literally "from scratch," he gradually built up a candy business. His well-founded knowledge and his rigid adherence to quality, coupled with constant hard work, won success.

Step by step the House of Hoefler gained ascendancy. Then came 1911, the Centennial Year for the bustling city of Astoria. One hundred years before it had been founded by no less a personage than John Jacob Astor. A fitting celebration was planned and, as his personal tribute, Henry R. Hoefler determined to prepare a new chocolate that should surpass every chocolate that had gone before.

but those with whom she talked about it are certain that she knew who had written it.

DIES IN AMBULANCE.

She was still gasping when found by Officer Sloan, who attempted artificial respiration until the ambulance arrived. She died while on the way to the Pomona Valley Hospital. Examination at the hospital showed that the body had been terribly burned below the waist, the bathrobe and nightgown, in which it was clad having been completely burned, while above the waist the clothing had protected the body somewhat. Around her right wrist the bathrobe cord was found tightly knotted.

Doctors believe it could not have been tied by the woman herself. Around her neck was a silk petticoat, which had the appearance of having been twisted there.

Mrs. Swain was 28 years old, and her husband and small daughter, and her parents, Mr. and Mrs. Joseph Haycock of Chino. She had been making preparations for the homecoming of her husband. An inquest will be held tomorrow afternoon at the Todd mortuary, where the body is now being held. Funeral arrangements will be delayed until word is received from the husband.

It is generally thought that Mrs. Swain's shop and the Hinman Building were fired at the same time. The property loss will total more than \$50,000. During the fire, Fire Chief Shewman received a deep gash below the right eye. Since the receipt of the letter she has been anxiously apprehensive and seemingly expected what happened. Because of her nervous and excited actions following the receipt of the note, friends had urged her to leave her shop and stay with them until such time as her husband should return from the East. Last night she consented to leave her small daughter, Jessie Katherine, 7 years of age, with Mr. and Mrs. Arthur Hausman, who live directly across the street from the ruins of the Fit It Shop. She left insurance policies and other valuables with them for safekeeping, but would not stay with them. She borrowed Mr. Hausman's gun, saying she might need it to protect herself. Whoever entered the place evidently overpowered Mrs. Swain before she could protect herself.

When the fire department arrived on the small shop was so nearly destroyed that efforts were concentrated on saving the big Hinman building. Persons knowing that Mrs. Swain slept in the rear of her shop began inquiring for her, and failing to find her, directed the firemen to turn the hose into the small building. When Officer Sloan entered the shop, he almost stumbled over the charred form of Mrs. Swain. She had evidently made her way to the door in an effort to get out, but could not unlock the door.

MASONS TO DEDICATE MEMORIAL.
Tablet in Honor of Lodge Members in World War to be Placed in Temple.

A bronze memorial tablet to Masons who were members of Southern California Lodge No. 278 at the time they served in the World War will be consecrated and dedicated at 8 p.m. today in the commandery room of the Masonic Temple, Pico and Figueroa streets. The tablet will be presented by Judge Weiler and received by James G. Scarborough.

W. W. Seaman, secretary of the lodge, will speak on its military history and a response on behalf of the veterans will be made by Col. Andrew J. Copp, Jr. The deacons will escort the honor men to their seats. The Golden West Commandery band will play.

UNWILLING WITNESS AGAINST HIS WIFE.

COURT RULES REALTY MAN MUST TESTIFY; SHOT HIM, IS CHARGE.

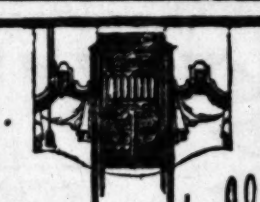

A reluctant witness against his wife, Pearl P. Garth, who, it is charged, shot and seriously wounded him, R. L. Garth, realty dealer of Long Beach, will be placed on the witness stand in Judge Avery's court this morning. The ruling compelling Mr. Garth to testify was made after it became known the couple had separated and a divorce action been started.

It is charged that Mrs. Garth drove to a spot near American and Ocean avenues in Long Beach on September 1 last and alighting from her automobile, walked to where her husband and H. B. McIntyre were standing and fired the shots that wounded the former.

Attorneys for Mrs. Garth yesterday objected to the State compelling the husband of the woman to testify, basing their objection on the ruling that a husband does not have to testify against his wife in a criminal action. The court, however, over-ruled the objection on the ground that there is a divorce action pending. Mr. Garth announced he did not wish to testify.

HELD ON CHECK CHARGE.

Taken into custody in a downtown bank while attempting to pass two forged checks, Henry Brown, 36 years of age, was lodged in the City Jail early yesterday by Burns detectives. Brown told the arresting officers that he had been unable to find work and attempted to pass the checks to obtain money to buy food.

NEW DEPUTY MAKES GOOD.

VENTURA, Dec. 13.—Bob Mandell was appointed a deputy sheriff at 5 p.m. yesterday. While in the Sheriff's office receiving his commission he noticed a photograph of a man in the office and in fifteen minutes had the man in custody in the person of Donald M. Blackmore, employed at a local automobile agency.

Blackmore was wanted on a warrant issued from the Superior Court at San Bernardino. According to advices received at Sheriff McGinnis's office, Blackmore has a criminal record, having been arrested a few months ago on a charge of manslaughter growing out of an automobile accident. In 1919 he was arrested on a bad-check charge.

COMMUNITY TREE.

Alhambra to Unite in Celebration of Christmas Week.

ALHAMBRA, Dec. 13.—With a plan fostered by the community service bureau of the Chamber of Commerce, Alhambra will this year have its first community Christmas tree. The tree, a large and beautiful specimen, has been donated by H. J. Goudge of Alhambra, who maintains a law practice in Los Angeles.

The tree will be erected on the high school campus. Mrs. A. A. Watson, chairman of the community service bureau, is receiving the co-operation of the Parent-Teacher bodies as well as many other organizations of the city and the Edison Club of the Southern California Edison Company here.

The Christmas tree exercises will be held in the gymnasium of the high school on the evening of Friday, December 23. The program will be comprised of choral and community singing and presents will be given out to every child from the needy families of the community. The little folk will be taken in automobiles to and from the exercise. The tree will be lighted each night during the Yuletide week.

FINE PEDDLER.

Eyeglass Vendor Forfeits Bail of Fifty Dollars.

ALHAMBRA, Dec. 13.—Arrested while attempting to sell eyeglasses in a house-to-house canvass, William R. Snell, now in the County Jail on various charges, says he murdered in New York was a puzzle yesterday for Deputy Sheriffs Wright and Strong. According to the officers, Christmas has named three different women as the one he is said to have slain. After a severe grilling he asserted the woman he killed in New York was none of the three, but a girl whose name he declines to give, according to the police.

At first, it was stated, he said he killed or thought he killed Grace Albert, known to him as Grace Mansfield, whom he says he met at San Juan Capistrano. Later he said the girl was Minnie Reed of New York.

Yesterday, Christmas is said to have told the officers that the girl killed was Blanche Falkingham. But she is supposed to be alive. The Christmas said none of the three was his victim and he declined to talk any more. He is held on charges of grand larceny, burglary and joyriding.

DEATH CALLS RED CROSS ENTHUSIAST.

FRESNO, Dec. 13.—Mrs. W. J. McNulty, for many years secretary of the Fresno Chapter of the American Red Cross and prominently identified in civic and philanthropic work, died here today from pneumonia, after a sickness of eleven days.

Aside from her work with the Red Cross, she had been a member of the City Planning Commission, since its inception and prior to the change in government had been a member of the City Beautiful Committee.

During the Panama-Pacific Exposition at San Francisco, Mrs. McNulty was chosen to represent Fresno county as chairman of the women's board and spent the period of the exposition at headquarters in the California Building. She came to Fresno in 1917. A son, Neil McNulty, resides in San Francisco.

WOMAN'S WILL IS FILED IN COURT.

REDLANDS, Dec. 13.—The will of Mrs. Salome Rike, who died here recently, has been filed in the Superior Court, no estimate being made of the value of the estate.

Mrs. Rike left to her niece, Miss Salome Rader, who had lived with her for a number of years, an annuity of \$100.00 directing that enough securities be set aside to provide that amount to be paid in quarterly payments during the life of Miss Rader.

The will directs that the remainder of the property be given share and share alike to the son, Frederick Rike of Dayton, O., and the daughter, Mrs. E. A. McDonald of this city. They are to share alike in the property set aside for Miss Rader after her death.

Mr. Rike is named executor of the estate and directed to make certain gifts of personal property to friends.

BOMB KILLS HUNDRED.

BRUSSELS, Dec. 13.—The Sturges Palace at Bolgrad, Belgrade, has been wrecked by a bomb, according to advices from Belgrade. One hundred soldiers and police on duty within the palace were killed. The bomb was thrown, it is believed, by one of a group of conspirators.

File Articles of Incorporation at Fresno.

Association to Work for New Highway Laws.

FRESNO, Dec. 13.—Articles of incorporation for the California Motor Transport Association, one of the aims of which will be "to encourage and promote the building of adequate roads, highways and bridges throughout the State," were filed with the Fresno County Clerk today. According to its promoters, who include some of the most prominent business men of Central California, the motor transport association will bear the same relation to the motor industry of the State that the California State Automobile Association bears to the passenger car.

The principal phase of business is put out in the articles of incorporation as Fresno.

Directors of the association, which will be State-wide in its scope, are:

W. D. Mitchell, president of the Valley Bank, Fresno; F. A. Seymour, assistant to the president of the California Associated Raisin Company; W. L. Matlock, district manager, Union Oil Company, Fresno; H. F. Allard, general manager, Central California Ice Company, Fresno; Fred Eckley, San Joaquin Baking Company, Fresno; Fred Mott, formerly of Fresno; Inc. Fresno; John R. Mader, Merced; E. M. Saunders, Madera; T. J. Black, Visalia; G. H. Galbraith, Bakersfield; Henry Chambers, Hanford.

Speaking tonight of the reasons for the formation of the corporation, President Mitchell threw a sidelight on its possible value to the financial interests in general of the State. He said: "Everyone at all familiar with the subject will readily admit that a very chaotic condition now exists throughout the State, with respect to the preservation and protection of our highways, the building of adequate highways to provide for our future needs, and the fullest utilization of that great economic transportation factor, the motor truck."

"It is as wasteful to permit damage to our highways as it is un-economic and unprogressive to deprive ourselves of motor truck transportation by the passage of laws and ordinances prohibiting their economic use."

"DEATH CONFESSION" PUZZLES OFFICERS.

PRISONER'S VARIOUS STORIES OF NEW YORK MURDER FAIL TO JIBE.

The identity of the person whom George Christman, alias George E. Jean, now in the County Jail on various charges, says he murdered in New York was a puzzle yesterday for Deputy Sheriffs Wright and Strong. According to the officers, Christmas has named three different women as the one he is said to have slain. After a severe grilling he asserted the woman he killed in New York was none of the three, but a girl whose name he declines to give, according to the police.

At first, it was stated, he said he killed or thought he killed Grace Albert, known to him as Grace Mansfield, whom he says he met at San Juan Capistrano. Later he said the girl was Minnie Reed of New York.

TOO MUCH JAZZ IS CAUSE OF DEATH.

VENICE, Dec. 13.—Because he was convinced that the public appreciated modern jazz more than the acknowledged musical compositions, Roy Baker, 21, Wavecrest avenue, ended his life this morning. The young man had been despondent for some time because he thought his musical ability was not appreciated and during the absence of the family inserted a tube from a gas jet in his mouth and inhaled the fumes. He was dead when found by relatives.

PURCHASE DRINKS AND ROB OWNER OF STAND.

After buying refreshments, two young men armed with revolvers early last night held up and robbed H. Smith, proprietor of a soft-drink stand at 6040 Sunset Boulevard, on his way home.

The young men entered the stand and ordered their drinks and stood talking as the proprietor turned his back to place had money he had collected in his till. Just then he was asked to turn around and put his hands up. The bandits then took the money, walked to and entered an automobile and drove slowly away. Mr. Smith reported the robbery to the Hollywood police.

HARDING APPROVES NEW THRIFT PLANS.

WASHINGTON, Dec. 13.—Treasury Secretary Mellon has obtained President Harding's approval for the issuance of a new series of thrift bonds to be unlimited in total and to be sold in denominations ranging up to \$1000.

The plan is designed to encourage holding of government securities by small investors, as well as to aid saving efforts.

AUTO VICTIM DIES

Another Suffers Nervous Shock from Accident.

MONROVIA, Dec. 13.—Norman T. Collins, 33, injured several weeks ago when his automobile turned turtle on the road to Bakersfield, is dead at his home on West White Oak avenue.

Collins is the second victim of the ill-fated vacation party's accident in the same mishap W. A. Maston, Monrovia's watchmaker, had his right thumb torn off and died from the effects of blood poisoning a short time later. Mr. Collins is survived by the widow, Iverna Daniel Collins, daughter of City Trustee J. P. Daniel, and by his parents, Mr. and Mrs. W. T. C. Collins.

SUFFERS FROM SHOCK.

F. W. Mathey, 2719 Rimpau avenue, is at the Monrovia Hospital following a crash in which his car was badly damaged by a big milk truck driven by F. T. Anderson of this city.

Mathey was not fully recovered from another accident, when his machine had been struck by a milk truck, the driver of which were attempting their escape from the police at Venice, and is suffering as much from nervous shock as from physical injuries.

PAY FINAL TRIBUTE TO LIEUT. EARL ROSS.

ARMY AVIATOR IS LAID AT REST IN NEW LEGION CEMETERY.

Further hallowing the burying ground of the new two-acre recently acquired by three posts of the American Legion at Forest Hill Cemetery, the body of Lieut. Earl Ross, who died last Saturday, was laid at rest yesterday afternoon.

The services were under the auspices of Victory Post No. 54, American Legion. Lieut. Ross was the second soldier of the World War to be buried in this Legionnaire plot.

A firing squad and buglers from Fort MacArthur paid the final salute to Lieut. Ross who died in his 29th year. Lieut. Ross entered the aviation section of the service, and while on duty contracted tuberculosis. For the last two years he had been confined to the government hospital in Oakland.

Chaplain Louis Dodson and Adjutant A. K. Jones of Victory Post had charge of the funeral services, which were held in the chapel of Goddard & Martindale. Members of the Disabled War Veterans' Association were the pallbearers.

Lieut. Ross leaves a widow, his father and mother, Mr. and Mrs. John Ross, and two sisters, all of this city.

NEW CORPORATION TO AID FILM INDUSTRY.

ARTICLES ARE FILED FOR MILLION-DOLLAR FIRM; OFFICERS NAMED.

With the filing of articles of incorporation here yesterday for a \$1,000,000 corporation to be known as the National Motion Picture Finance Corporation, the film industry in this city gained fresh impetus. The new institution will extend financial support to legitimate independent film-making enterprises, it is announced, and will be conducted as a high-grade investment proposition.

Lawrence A. Lambert, formerly of the California Electric Railway, is president of the corporation. Karl Morris, William W. Damron and Alfred G. Roberts are vice-presidents. R. L. Caruthers is secretary, and R. J. Schroeder is treasurer. R. C. Millar, formerly of Universal City, has been chosen as auditor.

NEW BOOK OF VERSE.

Dinuba Man Writes Folk Lore for Children.

DINUBA, Dec. 14.—Uncle Dan Dermody of Dinuba is the author of one of the cleverest little books of rhymes that has come from the press in recent years. And to make the volume, which he has called "The Goosegirls of the San Joaquin," Uncle Dan has taken his subjects from all parts of the San Joaquin Valley, made little fables of the sunnyside and by the magic process of mind, painted word pictures of valley affairs, old and new, real and imaginary, which will please little folk.

Uncle Dan's volume was published in Dinuba and has received the highest praise from such well-known Californians as Charles Howard Shinn, literary critic, who ranks in with such verifiers as Eugene Fields and James Whitcomb Riley. These men, however, wrote about children for grown-ups to read, while Uncle Dan has written about children for children themselves to read.

Each rhyme is made up of the story of a sunnyside under her real name in a real town in the great rain forest. Almost every community in the rain forest from Bakersfield to Madera is included.

FEDERAL AGENTS KILL JAPANESE SEAMAN.

PURPORTED ORIENTAL PEDDLERS OF NARCOTIC IN GUN BATTLE.

HOQUIAM (Wash.), Dec. 13.—One Japanese, believed to be K. Notsu, purser on the steamship Shinsei Maru, was killed on the water-front here tonight in a revolver encounter between two Federal agents and four alleged peddlers of narcotics. Three Japanese escaped, apparently unhurt.

The Federal agents, J. E. Brown and Ralph Latham, said they had arranged to pay \$22,500 for 225 ounces of a drug from four members of the crew of the Shinsei Maru. The Japanese, according to the officers, became suspicious and opened fire.

CHRISTMAS TREE FOR KIDDIES AT MONROVIA

MONROVIA, Dec. 13.—Preparations for Monrovia children's municipal Christmas tree entertainment started with a rush today when several committees under the chairmanship of City Engineer Henry S. Gierlich, started work preparing for the big event.

Presents of toys, nuts and fruits for nearly two thousand boys and girls have been ordered for distribution.

Annually the municipal Christmas service, held in the city park about a beautiful living deodar, attracts thousands of visitors and townspeople. This year the regular program will be preceded by a Yuletide pantomime, under direction of Miss Mary McCune.

The gayly decorated and illuminated tree will be a feature every night of Christmas week.

ASKS DIVORCE FROM CHURCHLY SPOUSE.

HUSBAND AT SERVICE SEVEN NIGHTS A WEEK, IS WIFE'S PLAIN.

Were there eight or more nights in each week, the marital ship of Henrietta M. Gomes and Clarence E. Gomes might still be floating along serenely. As there are only seven, Mrs. Gomes yesterday sued her husband for divorce.

She recites in her complaint that Mr. Gomes was a member of a church that conducted services Wednesday, Friday, Saturday and Sunday nights and held special meetings Monday, Tuesday and Thursday evenings. Her husband, she asserts, attended all services and meetings.

In addition to all this, Mrs. Gomes further asserts her husband attempted to force his religion on her. One of the principal precepts of the cult is, she says, that the wife is always to obey the husband. The attempt to put this into execution did not set well with her, it appears; her husband, so the complaint states, contending she should be his slave and servant.

Still a third asserted grievance is that, at the behest of her husband, she deposited several thousand dollars in a joint bank account at the time of their marriage and that now Mr. Gomes demands \$800 cash before he will release his wife's property.

They were married in June, 1920, and separated last September.

URGE AGAINST FIRE INSURANCE

State Board Asked to Defer Hollywood Rate Rise.

Business Men Say It Would Hurt Interests Here.

Suggest That Pacific Electric Better Service First.

In a petition to the State Railroad Commission asking that body to withhold permission to the Pacific Electric to increase fares on its Hollywood line to 12 cents until the interurban traction company makes certain improvements in service, the Business Men's Co-operative Association contends the proposed increase would jeopardize business investments in the Los Angeles downtown section, besides prove a hardship to patrons of the line. It is suggested in the petition that the maximum fare ought not to be more than 10 cents.

The petition, which was submitted through George M. Babcock, secretary of the association, states in part:

"We believe that if your honorable body finds it necessary to increase the fare to and from the Hollywood district it should be done conditionally in connection with the operation of the line through the proposed long tunnel from the Hill-street station and the speeding up and general improvement of the service. In order to make this certain we would respectfully suggest that such increase of fare be made to begin only after certain definitely stated steps have been taken in the consummation of this condition. We would therefore respectfully suggest that the fare requirement be made a part of your order."

The association directed its letter to the commission following a meeting of the board of directors, which was addressed by Chief Engineer Osborne of the Board of Public Utilities. Mr. Osborne reviewed the Pacific Electric application for an increase in rates and explained that, in his opinion, such a rise is necessary and justifiable. He admitted, however, that he differed with the company's officials relative to the creation of a six-cent zone fare limit at Sanborn Junction.

Engineer Osborne explained at the meeting that two set-ups have been recommended to the State Railroad Commission out of thirteen that have been worked out in detail as follows:

First, Zoning of the Hollywood section at Sanborn Junction and Crescent Junction, with 6-cent cash fares in each zone; 12-cent fare through two zones. All other lines to have 6-cent cash fare to present 6-cent fare limits. The entire city to have ten tokens for 50 cents in any zone, which token privilege also extends to the Hollywood district. This plan will pay an approximate return on a capital investment of \$11,243,000 of 4.4 per cent.

Second, Zoning of Hollywood district at Sanborn Junction and Crescent Junction, with 5-cent cash fare in each zone; 10 cents through two zones. All other lines to have 5-cent cash fare to present 6-cent fare limits.

RIOTING PRISONERS GET NO BREAKFAST.

NEW JERSEY PENITENTIARY DISTURBANCE QUIETED BY "STARVATION."

[EXCLUSIVE DISPATCH.]
NEW YORK, Dec. 13.—Eighty rioting prisoners in the Essex county penitentiary, Caldwell, N. J., were quieted today by the starvation method, after they demolished the furnishings of their cells as a protest against punishment of one of their number.

They remained in their cells and were not disturbed by the guards, but they snouted, yelled and swore all night long and into the day. They smashed washstands and destroyed the plumbing.

John Griffin, a negro prize fighter, sent from Newark a year ago, knocked down a guard Monday. The negro was taken to the punishment cell, but when he was in he immediately started yelling and destroying everything breakable in the place. The other prisoners heard him and took up the cry.

When breakfast time came none of the rioting prisoners was fed. Those who had remained quiet got their breakfast. The disturbance quieted during the day as the prisoners became hungry.

RUMBLINGS OF STRIKE HEARD IN NEW YORK.

[BY A. P. NIGHT WIRE.]
NEW YORK, Dec. 13.—New York's industrial horizon assumed a more pessimistic outlook today. Two great strikes that would involve more than 100,000 men were threatened. Rumbly of war disputes came from the railroad maintenance of way and shop craftsmen and the building trades. Wage cuts in the building trades to be drafted tomorrow will be fought to the utmost, union leaders declared yesterday. Railroad men stated yesterday that proposed reductions had been voted to demand a wage increase of 17 per cent.

ADDITIONAL TARIFF URGED AND OPPOSED.

[BY A. P. NIGHT WIRE.]
WASHINGTON, Dec. 12.—Additional tariff protection for the American grass and fiber-making and flax-growing industries was urged and opposed today before the Senate Finance Committee. H. A. Dammeyer and F. E. Cairsparten of New York, speaking for the rug manufacturers, declared the American market was being flooded with Japan grass and fiber rugs under a low tariff with the result the American industry was being seriously injured. They asked for a rate of 35 cents per square yard on imported grass and fiber rugs.

Opposing any increase in the tariff duties on these rugs was J. M. MacDonald of New York, representing the Association of Importers and Distributors of Japanese Floor Coverings.

Give the Kind of Present You'd Like to Get

One of the most attractive Christmas presents you can give to anyone is the beautiful Wahl Combination Writing Set. This set contains a handsome Eversharp Pencil and a Wahl Pen to match, both nestled together in the neatest gift box you ever saw. When you give this present to a friend you are giving the two finest instruments ever made for writing. Eversharp needs no introduction. Its wonderful writing record has made all other pencils obsolete. The Wahl Pen is as good a pen as Eversharp is a pencil. It is beautifully designed to match the pencil in sterling silver, gold filled or solid gold. Made with the same jeweler precision as Eversharp, to match the Eversharp, it is a fitting writing companion for Eversharp. This is the pen with the famous Wahl Comb Feed, the device that holds ink as a comb holds water, permitting it to flow perfectly to every writing touch. This Combination Set makes the very best kind of Christmas gift for men or women. For sale by Eversharp Dealers. Eversharps for gifts, \$1 to \$65; Wahl Pens \$6 to \$50.

FLEET OPERA CAST'S NAMED.

"Pinafore" Principals for
Next Week Are Chosen.

Revival for Legion Benefit
to be Notable Affair.

"Times" to Publish Song by
Carrie Jacobs Bond.

The cast of the American Legion's production of "Pinafore," and the incidental goings-on next week in honor of the fleet, were announced last night. Recent rehearsals of the all-professional cast and chorus of the Gilbert and Sullivan light opera classic, prompt the prediction from W. G. Stewart that the revival will rival the one he staged in 1914 at the Hippodrome in New York City. John Stewart and Edgar Temple, his associate in the California Light Opera Company, are directing the production, which opens Monday for a week at the Philharmonic Auditorium. The proceeds will go to the Legion.

NEW MARCH SONG.
Carrie Jacobs Bond has written a new march song with words by Fanny Hodge Newman. It is called "The American Legion" and is destined to become the anthem of the World War veterans. It will be sung for the first time Monday and throughout the week of the opera. The song, which will contain a reproduction of the words and music with an art cover done in rotogravure.

ROLES FOR FILM STARS.
The California Opera Company will form the base of the production. Larry Simon, Dustin Farnum, Lucile Rickson, Al St. John, and other film stars, will play important roles on certain days. Two battleships will be honored each night, beginning with the California, and one other on Monday. They will bring along their bands. Boreas for the officers and a block of seats for the men will be set aside.

A cinema queen contest will be decided Christmas Eve, when the queen will give away a \$2000 automobile and other prizes. The winner will be featured in a photograph written by H. C. Witwer, and the picture produced for the benefit of the Legion.

PLANS CHARITY CIRCUS

Children's Home Society to Hold
Ten-Day Bazaar.

Help to cheer the hearts of
homeless children at Christmas!

This plea was sent forth yesterday by the Children's Home Society of California, in launching the campaign of ticket sales for the charity circus and bazaar to be held for ten days commencing the 31st inst., under the auspices of the Los Angeles Advertiser Club.

Temporary headquarters for ticket sales have been opened at 1028 South Broadway, and the downtown district is being canvassed by a committee composed of society matrons and members of the Good Samaritan committee of the Ad Club, under the direction of Walter Wilson, chairman.

Proceeds from the sale of tickets to the circus will provide Christmas dinners and gifts for the children who are being cared for by the Children's Home Society of California, at 2414 Griffith avenue. The Escalante Brothers' circus has been engaged for ten days.

CONTEST OVER LAND REPUTED MINERAL.

Register Groves and Receiver Mitchell of the local Land Office yesterday heard argument in the contest of Sidney Selover against Frank J. Kierman, involving a quarter section of land near Newhall. It is stated the land is mineral in character and that Kierman is trying to obtain patent through a homestead entry. Nonresidence on the land is also charged.

NOW .. ARE .. BRIDE .. AND .. GROOM

County Telephone Chief Figures in East-West Romance.

Mr. and Mrs. Theodore John Neddermann.

MISS EDITH WILEY, beg pardon, Mrs. Theodore John Neddermann, superintendent of the county telephone exchange, had a secret until yesterday. It is just that—she is Mrs. Neddermann. The marriage was the result of a romance. Two years ago Miss Wiley and her mother sailed for the Orient. In Yokohama she met Mr. Neddermann, a civil engineer, connected with the house of Sals & Fraser, Tokio. He was love at first sight. It seems. At any rate Mr. Neddermann recently came to Los Angeles and November 30, last, they were married at the Mission Inn, Riverside, by Father William Oregon. Her mother, Mrs. Maryland C. Wiley, and Mr. Neddermann's mother, Mrs. William Neddermann of New York, attended the wedding. In taking out the marriage license, the groom-to-be gave his age as 25 years and that of the bride as 27.

Attorney Says Companies Here are
Efficiently Operated.

Public utilities in this country, and particularly in this State, are more efficiently managed and operated than any other large business enterprise, and these utilities are rendering service today at a cost which, under like conditions, could not be duplicated by any public or political agency, Attorney Paul Overton told members of the Los Angeles Transportation Club at its luncheon in the City Club yesterday. His subject was "Keeping Pace with the Demands for Gas in Los Angeles."
